

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE - EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE FDE

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine well is flared for faster and easier magazine changes, and the heel of the EHG RG9 Grip features a carry bob to minimize printing while concealed carrying. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Full-Size Grip replaces the factory one for those with larger hands or who need greater capacity. It is compatible with the MAG546 Magpul PMAG® 17 GL9® for the G17 as well as the 21 and 27-round magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA. FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions FLARED MAG WELL To promote fast, efficient reloads, the RXM EHG has a flared mag well, which aids in loading the gun using Magpul GL9 magazines GEN3 COMPATIBILITY The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components SPECS Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. NOTE: The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

- Name: EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE FDE
- Manufacturer: MAGPUL
- Product no.: 430113695
- Mfr. No.: MAG1517-FDE

EHG SG9 Grip Frame for Ruger RXM FullSize

Safety Instructions

Introduction

Thank you for choosing the EHG SG9 Grip Frame for your Ruger RXM FullSize pistol. This guide provides essential safety instructions, usage guidelines, and disposal information to ensure safe and effective use of your product. Please read this manual carefully before use.

General Safety Guidelines

- **Product Safety:** Always ensure that the grip frame is installed correctly and securely before using your firearm. Improper installation can lead to accidents.
- **Enhanced Recalls:** Stay informed about product recalls. If you receive any notice regarding recalls related to this product, follow the instructions provided.
- **Online Shopping:** If purchased online, ensure that the seller complies with EU safety regulations and provides a valid warranty.
- **Special Consumer Focus:** Keep this product out of reach of children. Ensure that only responsible adults handle the firearm.
- **EU Contact Point:** For any safety inquiries related to this product, refer to the manufacturer's contact information provided with your purchase.
- **Rapid Alerts:** Regularly check the EU Safety Gate platform for updates on product safety and potential recalls.

Specific Safety Precautions for Use

- **Handling:** Always treat your firearm as if it is loaded. Keep the muzzle pointed in a safe direction.
- **Installation:** Ensure that the grip frame is compatible with the Ruger RXM Pistol. Verify that all components are correctly fitted.
- **Magazine Changes:** Use caution when changing magazines. Ensure the firearm is pointed in a safe direction and your finger is off the trigger.
- **Ergonomics:** The grip frame is designed for comfortable handling. However, if you experience discomfort or difficulty in handling, stop using the product immediately.
- **Environmental Conditions:** Avoid using the firearm in extreme weather conditions that could affect performance or safety.
- **Personal Safety Gear:** Always wear appropriate personal protective equipment, including eye and ear protection, when handling firearms.

Instructions for Installation and Usage

1. Installation of the Grip Frame:

- Remove the existing grip frame from the Ruger RXM pistol.
- Align the EHG SG9 Grip Frame with the firearm's frame.
- Securely attach the grip frame, ensuring all screws and components are tightened as per the manufacturer's specifications.
- Verify that the magazine release and trigger guard are functioning correctly after installation.

2. Using the Grip Frame:

- Ensure the firearm is unloaded before handling.
- Hold the firearm with a proper grip, ensuring your fingers are not on the trigger until ready to shoot.

- Familiarize yourself with the TSP texture on the grip for improved handling.
- Practice safe loading and unloading procedures to ensure proficiency.

3. Maintenance:

- Regularly inspect the grip frame for signs of wear or damage.
- Clean the grip frame with a mild detergent and water. Avoid harsh chemicals that may damage the polymer material.
- Check all components, including the magazine release and trigger guard, to ensure they are functioning properly.

Disposal Instructions

- **Disposal of the Grip Frame:**

- When disposing of the grip frame, ensure it is done in accordance with local regulations regarding plastic waste.
- If the grip frame is damaged or no longer usable, consider recycling it if possible. Check with local recycling centers for guidelines.

Contact Information for Further Support

For additional support or inquiries regarding the EHG SG9 Grip Frame for Ruger RXM FullSize, please refer to the manufacturer's contact information provided with your purchase. Always ensure that you are in compliance with local regulations and safety standards.

Thank you for your attention to these safety instructions. Your safety and the safety of others are paramount when handling firearms.
