

# EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE - MAGPUL EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE FDE

[Handgun Parts](#) > [Frame Parts](#) > [Frames](#)

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine well is flared for faster and easier magazine changes, and the heel of the EHG RG9 Grip features a carry bob to minimize printing while concealed carrying. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Full-Size Grip replaces the factory one for those with larger hands or who need greater capacity. It is compatible with the MAG546 Magpul PMAG® 17 GL9® for the G17 as well as the 21 and 27-round magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA. FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions FLARED MAG WELL To promote fast, efficient reloads, the RXM EHG has a flared mag well, which aids in loading the gun using Magpul GL9 magazines GEN3 COMPATIBILITY The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components SPECS Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. NOTE: The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

## Attributes

- Name: [MAGPUL EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE FDE](#)
- Manufacturer: [MAGPUL](#)

- Product no.: 430113695
- Mfr. No.: MAG1517-FDE

# EHG SG9 Grip Frame for Ruger RXM Safety Instruction Guide

## Introduction

Thank you for choosing the EHG SG9 Grip Frame for Ruger RXM. This guide provides important safety information to ensure the safe use of this product. Please read this guide carefully and keep it for future reference.

## General Safety Guidelines

- Ensure safe use of the EHG SG9 Grip Frame by following these guidelines:
  - Always treat the firearm as if it is loaded.
  - Keep your finger off the trigger until you are ready to shoot.
  - Store the firearm and grip frame in a secure location, out of reach of children and unauthorized users.
  - Regularly inspect the grip frame for wear and tear.
  - Use only compatible Ruger RXM components and accessories.
- Be aware of potential hazards:
  - Improper installation can lead to malfunction or injury.
  - Use of nonapproved magazines may cause feeding issues.
  - Failure to follow instructions may result in unsafe handling of the firearm.

## Specific Safety Precautions for Use

- Before using the EHG SG9 Grip Frame, consider the following precautions:
  - Ensure the firearm is unloaded before installation.
  - Familiarize yourself with the grip frame's features and functions.
  - Always wear appropriate eye and ear protection when handling firearms.
  - Do not modify the grip frame or firearm beyond manufacturer specifications.
  - Avoid using the firearm in wet or slippery conditions to maintain grip control.
- For vulnerable groups, such as children:
  - Always supervise young users when handling firearms.
  - Educate them about firearm safety and the importance of responsible handling.

## Instructions for Installation and Usage

- Follow these steps for safe installation and usage of the EHG SG9 Grip Frame:
  1. Ensure the firearm is unloaded and pointed in a safe direction.
  2. Remove the factory grip frame according to the Ruger RXM manual.
  3. Align the EHG SG9 Grip Frame with the firearm's frame.
  4. Secure the grip frame using the provided hardware, ensuring a snug fit.
  5. Check the magazine release and ensure it functions correctly.
  6. Test the grip frame for stability and comfort before use.

- For optimal performance:
  - Use only Magpul EHG RG9 Grips compatible with the Ruger RXM.
  - Regularly clean and maintain the grip frame according to manufacturer recommendations.
  - Replace any worn or damaged components immediately.

## **Disposal Instructions**

- Dispose of the EHG SG9 Grip Frame responsibly:
  - Follow local regulations for disposal of polymer materials.
  - Do not incinerate the grip frame as it may release harmful substances.
  - Recycle where possible, ensuring it is processed in accordance with local recycling guidelines.

## **Contact Information for Further Support**

- For inquiries regarding safety, installation, or product support, please contact your local retailer or the manufacturer directly.
- Additionally, you may report any unsafe products or incidents to the relevant authorities in your area and check for recall updates on the EU's Safety Gate platform.

By following these guidelines, you can ensure the safe use of your EHG SG9 Grip Frame for Ruger RXM. Thank you for prioritizing safety and responsibility in your firearm handling.
