

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE - EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE OD GREEN

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine well is flared for faster and easier magazine changes, and the heel of the EHG RG9 Grip features a carry bob to minimize printing while concealed carrying. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Full-Size Grip replaces the factory one for those with larger hands or who need greater capacity. It is compatible with the MAG546 Magpul PMAG® 17 GL9® for the G17 as well as the 21 and 27-round magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA. FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions FLARED MAG WELL To promote fast, efficient reloads, the RXM EHG has a flared mag well, which aids in loading the gun using Magpul GL9 magazines GEN3 COMPATIBILITY The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components SPECS Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. NOTE: The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

EHG SG9 Grip Frame Safety Instruction Guide

Introduction

Thank you for purchasing the EHG SG9 Grip Frame for the Ruger RXM FullSize. This guide provides important safety information, usage instructions, and disposal guidelines to ensure your safety and the safety of others. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the grip frame is compatible with your Ruger RXM Pistol before installation.
- Always handle firearms with care, treating every weapon as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the firearm and accessories in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the grip frame and firearm for signs of wear or damage.
- Do not modify the grip frame or firearm in any way that could compromise safety.
- Follow all local laws and regulations regarding firearm ownership and usage.

Specific Safety Precautions for Use

- **Tactile Grip:** The TSP texture on the grip is designed for enhanced control. Ensure your hands are clean and dry for optimal grip.
- **Trigger Guard:** The undercut trigger guard allows for comfortable handling. Always keep fingers off the trigger until ready to shoot.
- **Magazine Well:** The flared magazine well aids in quick reloading. Practice magazine changes in a safe environment.
- **Universal Rail:** Use the rail for mounting accessories only as specified. Ensure that any mounted equipment is securely attached before use.
- **Compatibility:** Ensure that all components used with the grip frame are compatible with the Ruger RXM Pistol. Use only authorized Magpul products.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing grip frame from the Ruger RXM by following the manufacturer's instructions.
- Align the EHG SG9 Grip Frame with the firearm's frame.
- Securely attach the grip frame using the provided hardware, ensuring all screws are tightened properly.
- Reinstall the magazine release and other components as necessary.

2. Usage:

- Familiarize yourself with the grip frame and its features before using the firearm.
- Practice safe handling and shooting techniques at a controlled range.
- Regularly check the grip frame for tightness and any signs of wear.
- If you experience any issues with the grip frame, cease use immediately and consult a qualified gunsmith.

Disposal Instructions

- Dispose of the grip frame in accordance with local regulations regarding firearm accessories.
- If the grip frame is damaged beyond repair, consider recycling the polymer material if facilities are

available.

- Ensure that any disposed components do not pose a hazard to the environment or public safety.

Contact Information for Further Support

For any inquiries or concerns regarding the EHG SG9 Grip Frame, please consult the manufacturer's website or contact your local dealer for assistance.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your EHG SG9 Grip Frame and Ruger RXM Pistol. Always prioritize safety and be aware of your surroundings when handling firearms. Thank you for choosing our product.
