

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE - MAGPUL EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE OD GREEN

[Handgun Parts](#) > [Frame Parts](#) > [Frames](#)

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine well is flared for faster and easier magazine changes, and the heel of the EHG RG9 Grip features a carry bob to minimize printing while concealed carrying. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Full-Size Grip replaces the factory one for those with larger hands or who need greater capacity. It is compatible with the MAG546 Magpul PMAG® 17 GL9® for the G17 as well as the 21 and 27-round magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA. FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions FLARED MAG WELL To promote fast, efficient reloads, the RXM EHG has a flared mag well, which aids in loading the gun using Magpul GL9 magazines GEN3 COMPATIBILITY The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components SPECS Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. NOTE: The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

- Name: [MAGPUL EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE OD GREEN](#)
- Manufacturer: [MAGPUL](#)

- Product no.: 430113696

Safety Instruction Guide for EHG SG9 Grip Frame for Ruger RXM FullSize

Introduction

Thank you for choosing the EHG SG9 Grip Frame for your Ruger RXM FullSize pistol. This guide provides important safety information and instructions to ensure the safe use and maintenance of your product, in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- **Product Safety:** Always ensure the safe use of your grip frame and firearm. Familiarize yourself with the features and functions of both the EHG SG9 Grip and the Ruger RXM pistol.
- **Enhanced Recalls:** In the event of a safety recall, you will receive standardized notices. Ensure you follow any instructions provided for remedying the situation.
- **Online Shopping:** If purchased online, ensure that the seller meets safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra precautions should be taken when using this product around children or vulnerable individuals.
- **EU Contact Point:** For any safety inquiries, you can reach out to the designated EU contact point.
- **Rapid Alerts:** Stay informed about any updates on unsafe products through the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Compatibility Check:** Ensure that the EHG RG9 Grip is compatible with your Ruger RXM pistol. It is designed specifically for this model.
- **Proper Handling:** Always handle firearms safely. Keep the firearm pointed in a safe direction and keep your finger off the trigger until ready to shoot.
- **Ergonomics:** The grip features an undercut trigger guard for comfortable handling. Ensure proper grip to avoid accidental discharges.
- **Magazine Changes:** Use the flared magazine well to facilitate quick and efficient magazine changes. Ensure the firearm is unloaded during this process.
- **Surface Texture:** The TSP texture provides a solid grip. Ensure your hands are dry and clean to maintain grip effectiveness.
- **Concealed Carry:** When carrying concealed, be mindful of the carry bob feature to minimize printing.
- **Regular Inspections:** Regularly inspect the grip and firearm for wear and tear. Replace any worn components as necessary.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded before beginning installation.
- Remove the factory grip from the Ruger RXM by following the manufacturer's instructions.
- Align the EHG RG9 Grip with the firearm's frame and press firmly until it is securely in place.
- Ensure that the magazine release, slidelock spring, and takedownpin spring are properly installed and functioning.

2. Usage:

- Grip the firearm with both hands, ensuring a firm hold.
- Use the textured surfaces on the front strap, back strap, and side panels for enhanced control.

- When ready to fire, place your finger on the trigger only when you are aiming at your target.
- After use, ensure the firearm is cleaned and maintained according to the manufacturer's recommendations.

Disposal Instructions

- Dispose of the EHG SG9 Grip Frame responsibly. If it is no longer needed or is damaged beyond use, follow local regulations for disposal of polymer materials.
- Ensure that any components of the firearm are disposed of in accordance with local laws and regulations.

Contact Information for Further Support

For any questions or concerns regarding the EHG SG9 Grip Frame, please refer to the manufacturer's website or customer support channels for assistance.

By following these guidelines, you can ensure a safe and effective experience with your EHG SG9 Grip Frame for the Ruger RXM FullSize pistol. Thank you for prioritizing safety.
