

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE - EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE GRAY

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine well is flared for faster and easier magazine changes, and the heel of the EHG RG9 Grip features a carry bob to minimize printing while concealed carrying. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Full-Size Grip replaces the factory one for those with larger hands or who need greater capacity. It is compatible with the MAG546 Magpul PMAG® 17 GL9® for the G17 as well as the 21 and 27-round magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA. FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions FLARED MAG WELL To promote fast, efficient reloads, the RXM EHG has a flared mag well, which aids in loading the gun using Magpul GL9 magazines GEN3 COMPATIBILITY The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components SPECS Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. NOTE: The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

EHG SG9 Grip Frame Safety Instructions

Introduction

Thank you for choosing the EHG SG9 Grip Frame for the Ruger RXM FullSize. This safety instruction guide is designed to help you use the product safely and effectively while complying with the EU General Product Safety Regulation (GPSR). Please read this guide thoroughly before using the product.

General Safety Guidelines

- Ensure that all safety instructions are followed to prevent accidents and injuries.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Keep the grip frame and all related components out of reach of children and unauthorized users.
- Regularly inspect the grip frame for any signs of wear or damage. Do not use if damaged.
- Use only compatible accessories and components as specified in the product description.
- Be aware of your surroundings when handling firearms to avoid accidents.

Specific Safety Precautions for Use

- **Avoid Modifications:** Do not modify the grip frame or any of its components. Modifications can affect safety and performance.
- **Proper Grip:** Ensure that your grip is secure and that your hands are positioned correctly to maintain control of the firearm.
- **Trigger Guard:** Always keep your finger off the trigger until you are ready to shoot. The undercut trigger guard is designed for comfort but should not be misused.
- **Magazine Changes:** Be cautious when changing magazines. Ensure the firearm is pointed in a safe direction and the safety is engaged.
- **Concealed Carry:** If carrying concealed, ensure the grip frame is properly secured to avoid unintentional printing or exposure.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory grip frame from the Ruger RXM by following the manufacturer's instructions.
- Align the EHG SG9 Grip Frame with the firearm's frame.
- Secure the grip frame in place according to the installation instructions provided by Ruger.

2. Usage:

- Hold the firearm with a firm grip, ensuring your fingers are positioned correctly on the grip.
- Use the TSP texture on the grip for improved control and handling.
- When using accessories such as lights or lasers, ensure they are properly mounted on the universal rail of the grip.

Disposal Instructions

- Dispose of the EHG SG9 Grip Frame and any associated components in accordance with local regulations.
- Do not dispose of the grip frame in regular household waste. Check for local recycling programs or hazardous waste disposal facilities.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the appropriate contact points provided by the manufacturer or authorized dealers.

By following these safety instructions, you can ensure a safer and more enjoyable experience with your EHG SG9 Grip Frame for the Ruger RXM FullSize. Always prioritize safety and responsible firearm handling.
