

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE - MAGPUL EHG RG9 GRIP FRAME FOR RUGER RXM FULL-SIZE GRAY

[Handgun Parts](#) > [Frame Parts](#) > [Frames](#)

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ FULL-SIZE Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine well is flared for faster and easier magazine changes, and the heel of the EHG RG9 Grip features a carry bob to minimize printing while concealed carrying. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Full-Size Grip replaces the factory one for those with larger hands or who need greater capacity. It is compatible with the MAG546 Magpul PMAG® 17 GL9® for the G17 as well as the 21 and 27-round magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA. FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions FLARED MAG WELL To promote fast, efficient reloads, the RXM EHG has a flared mag well, which aids in loading the gun using Magpul GL9 magazines GEN3 COMPATIBILITY The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components SPECS Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. NOTE: The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

Safety Instruction Guide for EHG SG9 Grip Frame for Ruger RXM

Introduction

Thank you for choosing the EHG SG9 Grip Frame for Ruger RXM. This product is designed to enhance your shooting experience while ensuring safety and comfort. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Always handle firearms with care and follow all safety protocols.
- Keep the grip frame and firearm out of reach of children and unauthorized users.
- Regularly inspect the grip frame for any signs of wear or damage before use.
- Familiarize yourself with the local laws and regulations regarding firearms and accessories.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using firearms.
- Ensure that the firearm is unloaded before attaching or removing the grip frame.
- Do not modify the grip frame or firearm in any way that could compromise safety.
- Use only compatible magazines as specified in the product description.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

1. Installation of the Grip Frame:

- Ensure the firearm is unloaded.
- Remove the factory grip frame by following the manufacturer's instructions.
- Align the EHG SG9 Grip Frame with the firearm's frame.
- Secure the grip frame in place according to the installation instructions provided with the product.

2. Usage:

- Hold the firearm with both hands, ensuring a firm grip on the EHG SG9 Grip Frame.
- Utilize the TSP texture for enhanced grip and control.
- Practice safe shooting techniques and maintain awareness of your surroundings.

3. Maintenance:

- Regularly clean the grip frame with a soft cloth to remove dirt and debris.
- Inspect the grip frame for any damage or loose components before each use.

Disposal Instructions

- Dispose of the grip frame in accordance with local regulations regarding plastic waste.
- Do not dispose of the grip frame in regular household waste if it is damaged or worn beyond safe use.
- Consider recycling options available in your area for plastic materials.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact details provided on the packaging or product documentation.

By adhering to these safety instructions, you can ensure a safe and enjoyable experience with your EHG SG9 Grip Frame for Ruger RXM. Always prioritize safety and responsible firearm handling.
