MAGPUL DAKA UNIVERSAL GRID ORGANIZER FOR RIFLES With the DAKA GRID Organizer, Magpul provided a completely new and better way to organize and protect your firearms and important gear. The Block and Panel design also provides unlimited versatility, letting you set up a unique layout for every loadout. Their precision-fit DAKA GRID Organizers were custom-made for many of today's most popular hard cases, but those who have one of the millions of other cases currently available weren't able to bring the innovation of the GRID to their setup. Until now. The DAKA Universal GRID Organizer is a fully customizable, cut-to-fit organizational solution that secures and protects important equipment, no matter what case it's going into. Installation is easy, and the pre-marked guidelines on the underside of the GRID Panels allow them to be cut to fit almost any container, not just firearms cases. The Panels also have a serrated bottom for channeling and securing the included DAKA Gear Straps to optimize the Straps' hold on your gear. The DAKA Universal GRID Panels and Blocks are constructed of the same Expanded Polypropylene (EPP) material as their precision-cut DAKA GRIDS, nesting together securely to maximize protection, versatility, and ease-of-use. The Blocks can be organized in the GRID Panels to brace rifles, optics, ammunition, accessories, and any other gear, and they can be quickly removed and reinstalled for your next loadout. The Universal Rifle kit comes with eight (8) Panels, giving users just over 958 square inches of usable space before any cutting occurs. The lightweight DAKA Universal GRID system also uses included DAKA Gear Straps to retain gear for those cases where the lid of the case may not provide tight compression. The GRID's EPP material doesn't absorb contaminants the way open cell foam does, providing resistance to liquid and chemical intrusion inside your case. With wider or taller equipment such as lights, bipods, or lasers, a center GRID Panel can be cut to fit or removed entirely to open space provided the firearm is braced on both ends on the other Panels. DAKA Universal GRID Organizer Rifle includes eight (8) GRID Panels, six (6) triple Blocks, six (6) double Blocks, four (4) DAKA Gear Straps, and eight (8) adhesive gap shims. **FEATURES:** **SIMPLE CUSTOMIZATION** True cut-to-fit customization for irregular case shapes or case models not supported by precision GRID fitments Cut guidelines on Base Panels aid in ease of cutting and uniform lines DAKA Blocks can be stacked and cut for varied case depth Universal GRID uses the same GRID Organizer principle **LIGHTWEIGHT AND EASY TO USE** EPP construction is lighter and stronger than traditional foam Endlessly customizable and no tools required Unique gear loadouts set up in seconds **BETTER PROTECTION THAN YOUR OLD FOAM GRID** is stronger than open cell foam, holds your gear in place, and protects better from impacts Resists absorbing liquids and chemicals and easy to clean with a damp cloth Good temperature stability

DAKA Universal Grid Organizer for Rifles Safety Instruction Guide

Introduction

Thank you for choosing the DAKA Universal Grid Organizer for Rifles by Magpul. This product is designed to help you securely organize and protect your firearms and essential gear. To ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR), please read and follow this safety instruction guide carefully.

General Safety Guidelines

- Always use the DAKA Universal Grid Organizer as intended.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the organizer for signs of wear or damage.
- Ensure that all components are securely installed before use.
- In case of any malfunction or damage, cease use immediately and seek assistance.

Specific Safety Precautions for Use

- **Avoid Overloading:** Do not exceed the recommended weight limit for any panel or block. Overloading may compromise safety and stability.
- **Secure All Gear:** Ensure that all firearms and equipment are properly secured using the DAKA Gear Straps to prevent movement during transport.
- **Use in Appropriate Conditions:** Avoid exposing the organizer to extreme temperatures or harsh chemicals that may affect the material integrity.
- **Handle with Care:** When cutting the GRID Panels, use appropriate tools and follow the cutting guidelines to avoid injury.
- **Proper Bracing:** When using with wider or taller equipment, ensure that the firearm is braced on both ends for stability.

Instructions for Installation and Usage

1. Preparation:

- Gather all components of the DAKA Universal Grid Organizer, including GRID Panels, Blocks, and DAKA Gear Straps.
- Find a clean, flat surface for assembly and installation.

2. Cutting the Panels:

- Use the premarked guidelines on the underside of the GRID Panels for cutting.
- Use a sharp utility knife or scissors for clean cuts.
- Ensure that your hands and body are clear of the cutting path.

3. Assembling the Organizer:

- Place the GRID Panels in your chosen case.
- Insert the Blocks into the GRID Panels as needed to create compartments for your gear.
- Adjust the arrangement to suit your specific loadout.

4. Securing Gear:

- Use the DAKA Gear Straps to secure your firearms and accessories.

- Ensure that the straps are tightened adequately to prevent any shifting during transport.

5. Final Checks:

- Verify that all components are securely fitted and that there are no loose parts.
- Conduct a final inspection to ensure that the setup is stable and safe.

Disposal Instructions

- Dispose of the DAKA Universal Grid Organizer responsibly at your local waste management facility.
- Check local regulations for specific disposal guidelines regarding Expanded Polypropylene (EPP) materials.
- Do not incinerate or expose the product to fire as it may release harmful substances.

Contact Information for Further Support

For any safety inquiries or support regarding the DAKA Universal Grid Organizer, please contact your local retailer or manufacturer's customer service. Always refer to the official website for the latest information and updates.

By following these guidelines, you can ensure the safe and effective use of the DAKA Universal Grid Organizer for Rifles. Thank you for your attention to safety.
