

DAKA UNIVERSAL GRID ORGANIZER FOR LONG RIFLES - DAKA UNIVERSAL GRID ORGANIZER FOR LONG RIFLE BLACK

MAGPUL DAKA UNIVERSAL GRID ORGANIZER FOR LONG RIFLES With the DAKA GRID Organizer, we provided a completely new and better way to organize and protect your firearms and important gear. The Block and Panel design also provides unlimited versatility, letting you set up a unique layout for every loadout. Our precision-fit DAKA GRID Organizers were custom-made for many of today's most popular hard cases, but those who have one of the millions of other cases currently available weren't able to bring the innovation of the GRID to their setup. Until now. The DAKA Universal GRID Organizer is a fully customizable, cut-to-fit organizational solution that secures and protects important equipment, no matter what case it's going into. Installation is easy, and the pre-marked guidelines on the underside of the GRID Panels allow them to be cut to fit almost any container, not just firearms cases. The Panels also have a serrated bottom for channeling and securing the included DAKA Gear Straps to optimize the Straps' hold on your gear. The DAKA Universal GRID Panels and Blocks are constructed of the same Expanded Polypropylene (EPP) material as our precision-cut DAKA GRIDs, nesting together securely to maximize protection, versatility, and ease-of-use. The Blocks can be organized in the GRID Panels to brace rifles, optics, ammunition, accessories, and any other gear, and they can be quickly removed and reinstalled for your next loadout. The Universal Long Rifle kit comes with 10 Panels, giving users nearly 1,200 square inches of usable space before any cutting occurs. The lightweight DAKA Universal GRID system also uses included gear straps to retain gear for those cases where the lid of the case may not provide tight compression. The GRID's EPP material doesn't absorb contaminants the way open cell foam does, providing resistance to liquid and chemical intrusion inside your case. With wider or taller equipment such as lights, bipods, or lasers, a center GRID Panel can be cut to fit or removed entirely to open space provided the firearm is braced on both ends on the other Panels. DAKA Universal GRID Organizer Long Rifle includes ten (10) GRID Panels, eight (8) triple Blocks, eight (8) double Blocks, four (4) DAKA Gear Straps, and eight (8) adhesive gap shims. **FEATURES:** **SIMPLE CUSTOMIZATION** True cut-to-fit customization for irregular case shapes or case models not supported by precision GRID fitments Cut guidelines on Base Panels aid in ease of cutting and uniform lines DAKA Blocks can be stacked and cut for varied case depth Universal GRID uses the same GRID Organizer principle **LIGHTWEIGHT AND EASY TO USE** EPP construction is lighter and stronger than traditional foam Endlessly customizable and no tools required Unique gear loadouts set up in seconds **BETTER PROTECTION THAN YOUR OLD FOAM GRID** is stronger than open cell foam, holds your gear in place, and protects better from impacts Resists absorbing liquids and chemicals and easy to clean with a damp cloth Good temperature stability

DAKA Universal Grid Organizer for Long Rifles

Safety Instructions

Introduction

Thank you for choosing the DAKA Universal Grid Organizer for Long Rifles. This product is designed to help you organize and protect your firearms and essential gear effectively. Please read this safety instruction guide carefully to ensure safe and proper use of the organizer.

General Safety Guidelines

- Always ensure that the organizer is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents.
- Regularly inspect the organizer for any signs of wear or damage before each use.
- Be aware of the potential hazards associated with firearms and ensure that the organizer is used in a safe environment.
- Report any unsafe conditions or product malfunctions to the appropriate authorities.

Specific Safety Precautions for Use

- **Handling Firearms:** Always treat firearms as if they are loaded. Ensure that firearms are unloaded before placing them in the organizer.
- **Weight Limit:** Do not overload the organizer beyond its intended capacity, as this may compromise its structural integrity.
- **Chemical Exposure:** Avoid exposing the organizer to harsh chemicals or solvents that may degrade the material.
- **Temperature Stability:** Ensure that the organizer is not exposed to extreme temperatures that may affect its performance.
- **Installation:** Follow the installation instructions carefully to avoid improper setup, which may lead to accidents.

Instructions for Installation and Usage

1. **Preparation:** Before installation, ensure that you have a clean, flat surface to work on.
2. **Cutting the Panels:**
 - Use the premarked guidelines on the underside of the GRID Panels to cut them to fit your specific container.
 - Ensure that you use a suitable cutting tool for a clean cut.
3. **Assembling the Organizer:**
 - Place the cut GRID Panels into the desired configuration within your case.
 - Use the DAKA Blocks to brace rifles, optics, ammunition, and accessories securely.
4. **Securing Gear:**
 - Utilize the DAKA Gear Straps to retain your gear in place, especially for cases without tight compression.
5. **Adjustments:**
 - The Blocks can be easily removed and reinstalled for different loadouts.
 - Ensure that the firearm is braced on both ends if a center GRID Panel is removed or cut.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the organizer in regular household waste if it contains hazardous materials.
- Contact your local waste management authority for guidance on proper disposal methods.
