MAGPUL DAKA UNIVERSAL GRID ORGANIZER FOR LONG RIFLES With the DAKA GRID Organizer, we provided a completely new and better way to organize and protect your firearms and important gear. The Block and Panel design also provides unlimited versatility, letting you set up a unique layout for every loadout. Our precision-fit DAKA GRID Organizers were custom-made for many of today's most popular hard cases, but those who have one of the millions of other cases currently available weren't able to bring the innovation of the GRID to their setup. Until now. The DAKA Universal GRID Organizer is a fully customizable, cut-to-fit organizational solution that secures and protects important equipment, no matter what case it's going into. Installation is easy, and the pre-marked guidelines on the underside of the GRID Panels allow them to be cut to fit almost any container, not just firearms cases. The Panels also have a serrated bottom for channeling and securing the included DAKA Gear Straps to optimize the Straps' hold on your gear. The DAKA Universal GRID Panels and Blocks are constructed of the same Expanded Polypropylene (EPP) material as our precision-cut DAKA GRIDs, nesting together securely to maximize protection, versatility, and ease-of-use. The Blocks can be organized in the GRID Panels to brace rifles, optics, ammunition, accessories, and any other gear, and they can be quickly removed and reinstalled for your next loadout. The Universal Long Rifle kit comes with 10 Panels, giving users nearly 1,200 square inches of usable space before any cutting occurs. The lightweight DAKA Universal GRID system also uses included gear straps to retain gear for those cases where the lid of the case may not provide tight compression. The GRID's EPP material doesn't absorb contaminants the way open cell foam does, providing resistance to liquid and chemical intrusion inside your case. With wider or taller equipment such as lights, bipods, or lasers, a center GRID Panel can be cut to fit or removed entirely to open space provided the firearm is braced on both ends on the other Panels. DAKA Universal GRID Organizer Long Rifle includes ten (10) GRID Panels, eight (8) triple Blocks, eight (8) double Blocks, four (4) DAKA Gear Straps, and eight (8) adhesive gap shims. **FEATURES:** **SIMPLE CUSTOMIZATION** True cut-to-fit customization for irregular case shapes or case models not supported by precision GRID fitments Cut guidelines on Base Panels aid in ease of cutting and uniform lines DAKA Blocks can be stacked and cut for varied case depth Universal GRID uses the same GRID Organizer principle **LIGHTWEIGHT AND EASY TO USE** EPP construction is lighter and stronger than traditional foam Endlessly customizable and no tools required Unique gear loadouts set up in seconds **BETTER PROTECTION THAN YOUR OLD FOAM GRID** is stronger than open cell foam, holds your gear in place, and protects better from impacts Resists absorbing liquids and chemicals and easy to clean with a damp cloth Good temperature stability

DAKA Universal Grid Organizer for Long Rifles

Safety Instruction Guide

Introduction

Congratulations on your purchase of the DAKA Universal Grid Organizer for Long Rifles. This product is designed to provide a customizable, safe, and efficient way to organize and protect your firearms and essential gear. Please read this safety instruction guide carefully to ensure proper use and maintenance of the product, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- **Product Safety:** Always ensure that you are using the DAKA Universal Grid Organizer according to the instructions provided. This product is intended for nonfood use only and is designed to meet safety standards.
- **Hazard Awareness:** Be aware of potential hazards such as sharp edges when cutting the GRID Panels, and ensure that all components are securely installed before use.
- **Vulnerable Groups:** Keep this product out of reach of children and vulnerable individuals to prevent accidents or misuse.
- **Online Shopping:** If purchased online, ensure that the seller complies with EU safety requirements.
- **Product Recalls:** Stay informed about any recalls or safety notices related to this product by checking the EU's Safety Gate platform.
- **Reporting Unsafe Products:** If you encounter any unsafe products or accidents, report them to the appropriate authorities immediately.

Specific Safety Precautions for Use

- **Cutting Panels:** Use caution when cutting the GRID Panels. Always use a sharp utility knife and follow the premarked guidelines. Cut away from your body and ensure your hands are clear of the cutting path.
- **Installation:** Ensure that all GRID Panels and Blocks are properly secured before placing any gear inside the organizer. Check for stability and ensure that the organizer is placed on a flat, stable surface.
- **Weight Limits:** Do not exceed the recommended weight limits for the organizer. Overloading may compromise its structural integrity and lead to accidents.
- **Cleaning:** Clean the DAKA Universal Grid Organizer with a damp cloth. Avoid using harsh chemicals that may damage the EPP material.
- **Temperature Stability:** Store the organizer in a temperaturestable environment to prevent deformation of the materials.

Instructions for Installation and Usage

1. **Unpacking:** Carefully unpack the DAKA Universal Grid Organizer and check for all components: ten (10) GRID Panels, eight (8) triple Blocks, eight (8) double Blocks, four (4) DAKA Gear Straps, and eight (8) adhesive gap shims.
2. **Customization:**
 - Identify the layout that suits your needs best.
 - Use the premarked cutting guidelines on the underside of the GRID Panels to customize the size as needed.
 - Cut the panels carefully, ensuring that you follow the guidelines for uniformity.
3. **Assembling the Organizer:**
 - Insert the cut GRID Panels into your case as desired.
 - Position the Blocks within the GRID Panels to brace your firearms, optics, and accessories.
 - Ensure that the Blocks are securely fitted and can be easily removed and reinstalled for future loadouts.

4. **Securing Gear:**

- Use the DAKA Gear Straps to secure your gear within the organizer.
- Ensure the straps are tightened adequately to prevent any movement during transport.

5. **Final Check:**

- Before closing your case, doublecheck that all components are securely in place and that the organizer is stable.

Disposal Instructions

- **Material Disposal:** The DAKA Universal Grid Organizer is made from Expanded Polypropylene (EPP). Dispose of any damaged parts responsibly by following local waste disposal regulations.
- **Recycling:** Check local guidelines for recycling options for EPP materials. If possible, recycle the product to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the DAKA Universal Grid Organizer for Long Rifles, please refer to the product packaging or the retailer from whom you purchased the product for assistance. Always ensure that you have the necessary information at hand for support related to safety or product inquiries.
