

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS - THYRM LLC CLENS 31 LENS PROTECTORS

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS Lights only work well when their lenses are clean. Each CLENS Protector provides an easy way to protect lenses during extended shooting sessions. Just like goggle tear-offs for off-road riding, just remove the dirty CLENS to return your light to its optimal brightness. CLENS (pronounced "cleanse") come as a set of heat-resistant clear polymer circles, cut to fit on a wide range of flashlight and weapon-light lenses. Each CLENS Protector protects the lens from carbon and other debris that can build up during firearms training. Each CLENS Protector has a small tear-away tab. The CLENS Protector can be removed to quickly clean a light, rather than having to apply Vaseline before shooting, replace a lens, or risk abrasion with lens cleaners. Each CLENS' mild adhesive backing has a higher affinity for polymer than glass. Attach and position easily, without leaving adhesive on clean glass. However, the adhesive may stick to a dirty or damaged lens. In this case, touching the sticky side of the CLENS to any residual adhesive should remove the adhesive from the lens. Designed and manufactured in the USA. * Follow all firearm safety rules at all times. Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS.

Attributes

- Name: [THYRM LLC CLENS 31 LENS PROTECTORS](#)

CLENS Lens Protection Safety Instruction Guide

Introduction

Thank you for choosing the CLENS Lens Protection for Flashlights and Weapon Lights by THYRM LLC. This guide provides essential safety information and instructions for the safe use of the CLENS Lens Protectors. Please read this guide thoroughly to ensure the safe and effective use of your product.

General Safety Guidelines

- Always follow firearm safety rules when using your flashlight or weapon light.
- Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS Lens Protectors.
- Ensure the lens of your flashlight or weapon light is clean before applying the CLENS Protector.
- Avoid using the CLENS Protector on damaged lenses, as this may affect adhesion and performance.
- If you notice any irritation or adverse reactions when using the product, discontinue use immediately and consult a professional.

Specific Safety Precautions for Use

- **Hazard Identification:** The adhesive may stick to a dirty or damaged lens. Improper installation may result in reduced visibility or lens damage.
- **Avoiding Hazards:** Always clean the lens before applying the CLENS Protector. Use the tearaway tab to remove the dirty CLENS safely. Do not attempt to clean the lens while the CLENS Protector is attached.
- **Age Specific Warnings:** This product is not intended for use by children. Keep out of reach of children to prevent accidental ingestion or misuse.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure the lens of your flashlight or weapon light is clean and free of debris.
 2. Remove the CLENS Protector from its packaging.
 3. Carefully peel the backing off the CLENS Protector to expose the adhesive side.
 4. Align the CLENS Protector with the lens and gently press it onto the surface.
 5. Smooth out any air bubbles to ensure full contact with the lens.
- **Usage:** During extended shooting sessions, the CLENS Protector will shield the lens from carbon and debris. When the CLENS Protector becomes dirty, use the tearaway tab to remove it. Dispose of the used CLENS Protector responsibly. Repeat the installation process with a new CLENS Protector as needed.

Disposal Instructions

- Dispose of used CLENS Protectors in accordance with local waste disposal regulations.
- Do not incinerate or compost the product as it may release harmful substances.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the CLENS Lens Protectors, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for your attention to these safety instructions. Enjoy the enhanced performance and protection of your flashlight and weapon lights with CLENS Lens Protectors from THYRM LLC.
