

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS - THYRM LLC CLENS 18SM SMALL MEDIUM SIZE HALF SHEET

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS Lights only work well when their lenses are clean. Each CLENS Protector provides an easy way to protect lenses during extended shooting sessions. Just like goggle tear-offs for off-road riding, just remove the dirty CLENS to return your light to its optimal brightness. CLENS (pronounced "cleanse") come as a set of heat-resistant clear polymer circles, cut to fit on a wide range of flashlight and weapon-light lenses. Each CLENS Protector protects the lens from carbon and other debris that can build up during firearms training. Each CLENS Protector has a small tear-away tab. The CLENS Protector can be removed to quickly clean a light, rather than having to apply Vaseline before shooting, replace a lens, or risk abrasion with lens cleaners. Each CLENS' mild adhesive backing has a higher affinity for polymer than glass. Attach and position easily, without leaving adhesive on clean glass. However, the adhesive may stick to a dirty or damaged lens. In this case, touching the sticky side of the CLENS to any residual adhesive should remove the adhesive from the lens. Designed and manufactured in the USA. * Follow all firearm safety rules at all times. Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS.

Attributes

- Name: [THYRM LLC CLENS 18SM SMALL MEDIUM SIZE HALF SHEET](#)
- Manufacturer: [THYRM LLC](#)
- Product no.: 430113976
- Mfr. No.: CLS18SM
- Colour: Clear
- Model Number: (18SM) Small Medium Size Half Sheet
- Delivery weight: 0.027kg
- Shipping height: 3mm
- Shipping width: 146mm
- Shipping length: 222mm

CLENS Lens Protection for Flashlights and Weapon Lights Safety Instruction Guide

Introduction

Thank you for choosing CLENS Lens Protection for your flashlights and weapon lights. This guide provides important safety instructions and usage guidelines to ensure that you use the product safely and effectively. Please read this guide carefully before using the CLENS Protectors.

General Safety Guidelines

- Ensure that all products are used in accordance with the manufacturer's instructions.
- Always follow firearm safety rules when handling firearms.
- Detach lights from firearms before installing, removing, cleaning, or replacing the CLENS Protectors.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for any recalls or safety notices related to the product.

Specific Safety Precautions for Use

- **Avoid Contact with Dirty Surfaces:** The adhesive backing may stick to a dirty or damaged lens. Ensure that the lens is clean before application.
- **Use Properly:** CLENS Protectors are designed to protect lenses during shooting sessions. Do not use them for any other purpose.
- **Monitor for Damage:** Regularly inspect the CLENS Protectors for signs of wear or damage. Replace as necessary to ensure optimal performance.
- **Adhesive Removal:** If the adhesive sticks to a dirty lens, touching the sticky side of the CLENS to any residual adhesive should help remove it from the lens.
- **Heat Resistance:** CLENS Protectors are heatresistant, but avoid exposing them to extreme temperatures for extended periods.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the flashlight or weapon light is turned off and detached from any firearm.
- Clean the lens surface with a suitable lens cleaner to ensure optimal adhesion.

2. Application:

- Remove the CLENS Protector from its backing.
- Align the CLENS Protector with the lens, ensuring it covers the entire surface.
- Press down firmly to secure the Protector in place.

3. Usage:

- During shooting sessions, if the CLENS Protector becomes dirty, simply peel it off and discard it.
- Replace with a new CLENS Protector to maintain optimal brightness.

4. Removal:

- To remove the CLENS Protector, gently peel it from one edge, pulling it away from the lens.
- If any adhesive residue remains, use the sticky side of the CLENS to remove it.

Disposal Instructions

- Dispose of used CLENS Protectors in accordance with local waste disposal regulations.
- Do not dispose of the product in fire, as it may release harmful fumes.

Contact Information for Further Support

For any questions or concerns regarding the CLENS Lens Protection, please refer to the manufacturer's website or customer support resources. Always ensure you have the latest safety information and updates regarding your product.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our priority. Enjoy using your CLENS Lens Protection for enhanced performance and clarity in your lighting devices.
