

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS - THYRM LLC CLENS 18M MEDIUM SIZE HALF SHEET

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS Lights only work well when their lenses are clean. Each CLENS Protector provides an easy way to protect lenses during extended shooting sessions. Just like goggle tear-offs for off-road riding, just remove the dirty CLENS to return your light to its optimal brightness. CLENS (pronounced "cleanse") come as a set of heat-resistant clear polymer circles, cut to fit on a wide range of flashlight and weapon-light lenses. Each CLENS Protector protects the lens from carbon and other debris that can build up during firearms training. Each CLENS Protector has a small tear-away tab. The CLENS Protector can be removed to quickly clean a light, rather than having to apply Vaseline before shooting, replace a lens, or risk abrasion with lens cleaners. Each CLENS' mild adhesive backing has a higher affinity for polymer than glass. Attach and position easily, without leaving adhesive on clean glass. However, the adhesive may stick to a dirty or damaged lens. In this case, touching the sticky side of the CLENS to any residual adhesive should remove the adhesive from the lens. Designed and manufactured in the USA. * Follow all firearm safety rules at all times. Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS.

Attributes

- Name: [THYRM LLC CLENS 18M MEDIUM SIZE HALF SHEET](#)
- Manufacturer: [THYRM LLC](#)
- Product no.: 430113977
- Mfr. No.: CLS18M

CLENS Lens Protection for Flashlights and Weapon Lights Safety Instruction Guide

Introduction

Thank you for choosing the CLENS Lens Protection for Flashlights and Weapon Lights by THYRM LLC. This product is designed to keep your light lenses clean and protected during extended shooting sessions. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always follow firearm safety rules at all times.
- Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS.
- Ensure that all users are familiar with the product and its intended use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for updates or recalls on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - The adhesive backing may stick to dirty or damaged lenses.
 - Improper use may lead to lens abrasion or reduced visibility.
- **Instructions for Avoiding Hazards:**
 - Always clean the lens before applying the CLENS Protector.
 - Do not use the product if the lens is cracked or damaged.
 - If the adhesive sticks to the lens, touch the sticky side of the CLENS to any residual adhesive to remove it.

Instructions for Installation and Usage

1. Preparation:

- Ensure the lens is clean and free from debris.
- Gather the CLENS Protector and any necessary tools (if applicable).

2. Application:

- Peel the CLENS Protector from its backing.
- Align the Protector with the lens, ensuring it fits properly.
- Press down gently to adhere the Protector to the lens.

3. Removal:

- To remove the CLENS Protector, pull the small tearaway tab.
- Dispose of the used Protector responsibly.

4. Cleaning:

- If the lens requires cleaning, remove the CLENS Protector and clean the lens as needed.
- Reapply a new CLENS Protector after cleaning.

Disposal Instructions

- Dispose of used CLENS Protectors in accordance with local waste management regulations.
- Do not dispose of the product in regular household waste if it is classified as hazardous.

Contact Information for Further Support

For any inquiries regarding the safety or performance of the CLENS Lens Protection, please refer to the manufacturer's website or customer service resources.

Thank you for prioritizing safety and for your responsible use of the CLENS Lens Protection for Flashlights and Weapon Lights.
