

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS - THYRM LLC CLENS 18L LARGE SIZE HALF SHEET

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS Lights only work well when their lenses are clean. Each CLENS Protector provides an easy way to protect lenses during extended shooting sessions. Just like goggle tear-offs for off-road riding, just remove the dirty CLENS to return your light to its optimal brightness. CLENS (pronounced "cleanse") come as a set of heat-resistant clear polymer circles, cut to fit on a wide range of flashlight and weapon-light lenses. Each CLENS Protector protects the lens from carbon and other debris that can build up during firearms training. Each CLENS Protector has a small tear-away tab. The CLENS Protector can be removed to quickly clean a light, rather than having to apply Vaseline before shooting, replace a lens, or risk abrasion with lens cleaners. Each CLENS' mild adhesive backing has a higher affinity for polymer than glass. Attach and position easily, without leaving adhesive on clean glass. However, the adhesive may stick to a dirty or damaged lens. In this case, touching the sticky side of the CLENS to any residual adhesive should remove the adhesive from the lens. Designed and manufactured in the USA. * Follow all firearm safety rules at all times. Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS.

Attributes

- Name: [THYRM LLC CLENS 18L LARGE SIZE HALF SHEET](#)
- Manufacturer: [THYRM LLC](#)
- Product no.: 430113978
- Mfr. No.: CLS18L

CLENS Lens Protection Safety Instruction Guide

Introduction

Thank you for choosing CLENS Lens Protection for your flashlights and weapon lights. This guide provides essential safety instructions and usage recommendations to ensure safe and effective use of the product. Please read this guide carefully before using the CLENS Protectors.

General Safety Guidelines

- Always follow firearm safety rules.
- Detach lights from firearms before installing, removing, cleaning, or replacing the CLENS Protectors.
- Ensure lenses are clean before applying CLENS Protectors.
- Avoid using CLENS Protectors on damaged or excessively dirty lenses.
- If the adhesive sticks to a dirty lens, use the sticky side of the CLENS to remove any residual adhesive.
- Keep CLENS Protectors out of reach of children to avoid accidental ingestion or misuse.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Improper use may lead to reduced visibility or lens damage.
 - Adhesive residue may affect lens clarity if used on dirty surfaces.
- **Avoiding Hazards:**
 - Always ensure that the lens surface is clean and dry before application.
 - Do not use CLENS Protectors if the lens is cracked or damaged.
 - If you experience any allergic reactions to the adhesive, discontinue use immediately.
- **Age Specific Warnings:**
 - This product is not intended for children under 12 years of age without adult supervision.

Instructions for Installation and Usage

1. Preparation:

- Clean the lens of your flashlight or weapon light thoroughly to remove any dirt or debris.
- Make sure the lens is dry before applying the CLENS Protector.

2. Application:

- Take a CLENS Protector from the package.
- Carefully peel the CLENS Protector from its backing.
- Align the CLENS Protector with the center of the lens and gently press it onto the surface.
- Smooth out any air bubbles by pressing from the center outward.

3. Removal:

- To remove a dirty CLENS Protector, simply grasp the tearaway tab and pull it away from the lens.
- If the adhesive sticks to the lens, use the sticky side of a new CLENS Protector to lift the residue.

4. Cleaning:

- If the lens becomes dirty during use, replace the CLENS Protector with a new one instead of attempting to clean it with solvents or abrasives.

Disposal Instructions

- Dispose of used CLENS Protectors in accordance with local regulations.
- Do not dispose of in household waste if local laws require special disposal methods for adhesive materials.

Contact Information for Further Support

For any safety inquiries or productrelated questions, please refer to the appropriate EU contact points or local authorities. Always stay updated on recall notices and safety alerts via the EU's Safety Gate platform.

Thank you for prioritizing safety while using CLENS Lens Protection. Your commitment to following these guidelines helps ensure a safe and effective experience.
