

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS

- CLENS 10XL XL SIZE HALF SHEET

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS Lights only work well when their lenses are clean. Each CLENS Protector provides an easy way to protect lenses during extended shooting sessions. Just like goggle tear-offs for off-road riding, just remove the dirty CLENS to return your light to its optimal brightness. CLENS (pronounced "cleanse") come as a set of heat-resistant clear polymer circles, cut to fit on a wide range of flashlight and weapon-light lenses. Each CLENS Protector protects the lens from carbon and other debris that can build up during firearms training. Each CLENS Protector has a small tear-away tab. The CLENS Protector can be removed to quickly clean a light, rather than having to apply Vaseline before shooting, replace a lens, or risk abrasion with lens cleaners. Each CLENS' mild adhesive backing has a higher affinity for polymer than glass. Attach and position easily, without leaving adhesive on clean glass. However, the adhesive may stick to a dirty or damaged lens. In this case, touching the sticky side of the CLENS to any residual adhesive should remove the adhesive from the lens. Designed and manufactured in the USA. * Follow all firearm safety rules at all times. Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS.

Attributes

- Name: CLENS 10XL XL SIZE HALF SHEET
- Manufacturer: THYRM LLC
- Product no.: 430113979
- Mfr. No.: CLS10XL
- Color: Clear
- Model Number: (10XL) XL Size Half Sheet
- Delivery weight: 0.027kg
- Shipping height: 3mm
- Shipping width: 146mm
- Shipping length: 222mm
- UPC: 765855322416

CLENS Lens Protection Safety Instruction Guide

Introduction

Thank you for choosing CLENS Lens Protection for your flashlights and weapon lights. This guide provides essential safety instructions to ensure the safe and effective use of CLENS Protectors. Please read this guide thoroughly before using the product.

General Safety Guidelines

- Ensure safe use of CLENS Protectors by following all instructions.
- Always detach lights from firearms before installing, removing, cleaning, or replacing the CLENS.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.
- Keep CLENS Protectors out of reach of children to prevent accidental ingestion or misuse.

Specific Safety Precautions for Use

- Use CLENS Protectors only on clean, undamaged lenses to ensure proper adhesion.
- Avoid using CLENS Protectors on lenses that are dirty or have residual adhesive.
- If the adhesive from the CLENS sticks to a dirty lens, touch the sticky side of the CLENS to the adhesive to remove it.
- Do not apply CLENS Protectors to lenses that are cracked or severely scratched.
- Follow all firearm safety rules at all times when handling firearms and lights.

Instructions for Installation and Usage

1. Preparation:

- Ensure the lens of your flashlight or weapon light is clean and free from debris.
- Gather the CLENS Protectors and identify the appropriate size for your lens.

2. Installation:

- Carefully peel the CLENS Protector from its backing.
- Align the CLENS Protector with the lens, ensuring it fits properly.
- Press the CLENS Protector onto the lens, applying gentle pressure to ensure adhesion.

3. Usage:

- During shooting sessions, the CLENS Protector will shield the lens from carbon and other debris.
- If the CLENS Protector becomes dirty, simply peel it off to reveal a clean lens underneath.

4. Removal:

- To remove the CLENS Protector, gently peel it from the lens starting at one corner.
- Dispose of the used CLENS Protector responsibly.

Disposal Instructions

- Dispose of used CLENS Protectors in accordance with local waste disposal regulations.
- Do not incinerate or recycle the CLENS Protectors, as they are made from polymer materials that may not be suitable for these processes.

Contact Information for Further Support

For any safety inquiries or further support regarding CLENS Lens Protection, please refer to the manufacturer's contact details provided on the product packaging or visit the official website.

Thank you for your attention to these safety instructions. Enjoy the enhanced performance and protection provided by your CLENS Lens Protectors. Stay safe!
