

# CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS - THYRM LLC CLENS 10XL XL SIZE HALF SHEET

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

CLENS LENS PROTECTION FOR FLASHLIGHTS AND WEAPON LIGHTS Lights only work well when their lenses are clean. Each CLENS Protector provides an easy way to protect lenses during extended shooting sessions. Just like goggle tear-offs for off-road riding, just remove the dirty CLENS to return your light to its optimal brightness. CLENS (pronounced "cleanse") come as a set of heat-resistant clear polymer circles, cut to fit on a wide range of flashlight and weapon-light lenses. Each CLENS Protector protects the lens from carbon and other debris that can build up during firearms training. Each CLENS Protector has a small tear-away tab. The CLENS Protector can be removed to quickly clean a light, rather than having to apply Vaseline before shooting, replace a lens, or risk abrasion with lens cleaners. Each CLENS' mild adhesive backing has a higher affinity for polymer than glass. Attach and position easily, without leaving adhesive on clean glass. However, the adhesive may stick to a dirty or damaged lens. In this case, touching the sticky side of the CLENS to any residual adhesive should remove the adhesive from the lens. Designed and manufactured in the USA. \* Follow all firearm safety rules at all times. Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS.

## Attributes

- Name: [THYRM LLC CLENS 10XL XL SIZE HALF SHEET](#)
- Manufacturer: [THYRM LLC](#)
- Product no.: 430113979
- Mfr. No.: CLS10XL

# Safety Instruction Guide for CLENS Lens Protection for Flashlights and Weapon Lights

## Introduction

Thank you for choosing CLENS Lens Protection for your flashlights and weapon lights. This product is designed to help you maintain clear visibility during extended shooting sessions by protecting your lenses from dirt and debris. Please read this safety instruction guide carefully to ensure safe and effective use of the CLENS Protectors.

## General Safety Guidelines

To ensure your safety and the safety of others, please observe the following guidelines:

- Always follow firearm safety rules at all times.
- Detach lights from firearms prior to installing, removing, cleaning, or replacing the CLENS.
- Handle the product with clean hands to avoid transferring dirt or debris to the lens.
- Inspect the lens and the CLENS Protector for any damage before use.
- If you notice any signs of wear or damage, discontinue use and replace the CLENS Protector.

## Specific Safety Precautions for Use

When using CLENS Lens Protection, please keep the following precautions in mind:

- Ensure that the lens is clean and free from dust or grease before applying the CLENS Protector.
- Avoid applying the CLENS Protector to lenses that are cracked, scratched, or otherwise damaged.
- Be cautious when removing the CLENS Protector to avoid any potential abrasion to the lens.
- If the adhesive sticks to a dirty or damaged lens, gently touch the sticky side of the CLENS to any residual adhesive to remove it.
- Keep CLENS Protectors out of reach of children and pets to prevent accidental ingestion or misuse.

## Instructions for Installation and Usage

Follow these steps for proper installation and usage of the CLENS Protectors:

### 1. Preparation:

- Ensure your flashlight or weapon light is turned off and detached from any firearms.
- Clean the lens surface with a soft, lintfree cloth to remove any debris.

### 2. Application:

- Carefully peel the CLENS Protector from its backing.
- Align the CLENS Protector with the lens, ensuring a proper fit.
- Press the CLENS Protector onto the lens, applying gentle pressure to ensure adhesion.

### 3. Usage:

- Use the flashlight or weapon light as intended. The CLENS Protector will shield the lens from dirt and debris.
- If the CLENS Protector becomes dirty, simply remove it by pulling on the tearaway tab.

### 4. Removal:

- To remove the CLENS Protector, gently pull on the tearaway tab.
- If necessary, clean the lens with a soft cloth after removing the CLENS Protector.

## **Disposal Instructions**

When disposing of used CLENS Protectors, please follow these guidelines:

- Dispose of the CLENS Protectors in accordance with local regulations for plastic waste.
- Do not dispose of the product in fire, as it may release harmful fumes.
- Ensure that used CLENS Protectors are kept out of reach of children and pets during disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of CLENS Lens Protection, please consult the manufacturer's website or contact their customer support.

Thank you for your attention to these safety instructions. Enjoy your safe and effective use of CLENS Lens Protection for your flashlights and weapon lights.
