

ADAC-15 MODEL-1 COMPLETE PISTOL LOWER RECIEVER FOR AR-15

- RADIAN WEAPONS ADAC-15 MODEL-1 COMPLETE PISTOL LOWER RECEIVER FOR AR-15

RADIAN WEAPONS ADAC-15 MODEL-1 COMPLETE PISTOL LOWER RECIEVER FOR AR-15 The design philosophy behind the Radian Model 1 is simple: use the highest quality raw materials, the most precise CNC machining equipment, and the best components available to create a weapon that seamlessly blends form and function. Beyond quality and aesthetics, the Model 1 features fully ambidextrous controls, adding much-needed utility for both left- and right-handed shooters. Every Model 1 is assembled by hand, one at a time, by a trained gunsmith who inspects, test fires, and cleans the weapon to personally guarantee it meets the most rigid quality standards. No detail has gone overlooked, which is why the Model 1—like every Radian product—is guaranteed for life. Machined from billet 7075-T6 aluminum, the A-DAC 15 is a fully ambidextrous lower receiver for AR-15-style firearms. In addition to the Talon Ambidextrous Safety Selector, left-side magazine release, and right-side bolt release, the A-DAC 15 features the patented A-DAC (Ambidextrous Dual Action Catch), which allows right-handed shooters to easily lock the bolt to the rear without taking their hand off fire control. To hold the bolt back using the A-DAC, simply pull the charging handle to the rear, depress the right-side magazine release button, then release the charging handle.
