CARBIDE FACTORY CRIMP MICROMETER SEATER ADAPTERS SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Lee Precision Carbide Factory Crimp Micrometer Seater Adapters. This product is designed to enhance your bullet seating process, ensuring precision and ease of use. To ensure safe operation and optimal performance, please read and follow this safety instruction guide carefully.

General Safety Guidelines

- Ensure safe use of the product by following all instructions provided.
- Be aware of potential risks associated with reloading and using ammunition components.
- Always use the product in accordance with the manufacturer's guidelines.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for product recalls or safety updates via the EU Safety Gate platform.
- Report any unsafe products or accidents to local authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using reloading equipment.
- Ensure that your workspace is clean, welllit, and free of distractions.
- Inspect the product before use for any visible damage or defects.
- Only use the product with compatible Lee Precision dies and cartridges as specified.
- Do not modify the product or use it for purposes other than intended.
- Keep fingers and hands clear of moving parts during operation to avoid injury.
- Follow proper procedures for handling and storing reloading materials and finished ammunition.

Instructions for Installation and Usage

1. Installation:

- Remove the stock adjusting screw from your Lee Carbide Factory Crimp die.
- Select the correct cartridgespecific adapter for your application.
- Carefully install the adapter by following the manufacturer's instructions.
- Ensure that the adapter is securely fastened and properly aligned.

2. Usage:

- Set up your reloading press according to the manufacturer's guidelines.
- Adjust the micrometer setting to the desired bullet seating depth.
- Load the cartridge case into the press and engage the crimping process.
- Check the bullet seating depth and crimping function after each adjustment.
- If necessary, make minor adjustments to the micrometer for precise seating.

3. PostUse:

- After completing your reloading session, clean the product to remove any residue.
- Store the product in a dry and secure location away from children and pets.

Disposal Instructions

- Dispose of the product in accordance with local regulations for electronic waste and reloading materials.
- Do not dispose of the product in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the Lee Precision Carbide Factory Crimp Micrometer Seater Adapters, please refer to the manufacturer's website or customer service resources for assistance.

Thank you for your attention to these safety instructions. Enjoy your reloading experience with confidence!
