

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 38-55 WINCHESTER RIFLE PRECISION MICROMETER BULLET SEAT DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This product is designed to enhance your reloading experience by providing precise bullet seating. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always handle reloading equipment with care to prevent accidents.
- Ensure that your workspace is clean and organized to minimize risks.
- Store all components, including dies, in a safe place away from children and pets.
- Familiarize yourself with the product before use to understand its features and functions.
- Follow all local laws and regulations regarding ammunition reloading and usage.
- Regularly inspect your equipment for wear and damage before each use.

Specific Safety Precautions for Use

- Always wear safety glasses when operating reloading equipment to protect your eyes from debris.
- Avoid wearing loose clothing or jewelry that could become caught in machinery.
- Keep hands and other body parts clear of moving parts during operation.
- Do not exceed the recommended load data for your specific cartridge.
- Ensure that the die is properly installed and tightened before use to avoid accidents.
- Use the bullet seating die in a wellventilated area to avoid inhaling any dust or particles.

Instructions for Installation and Usage

1. Installation of the Die:

- Remove the die from its packaging and inspect it for any damage.
- Clean the die with a soft cloth to remove any factory oils or debris.
- Insert the die into the reloading press and tighten securely.
- Adjust the die according to your desired bullet seating depth using the micrometer thimble.

2. Using the Die:

- Place an empty cartridge case in the shell holder.
- Insert a bullet into the case mouth.
- Gently lower the ram of the press to seat the bullet into the case.
- Check the seating depth using the micrometer to ensure precision.
- Repeat the process for additional cartridges, ensuring consistent results.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away cartridges or components in regular trash. Contact local waste management services for proper disposal methods.
- Ensure that all hazardous materials are disposed of safely to prevent environmental contamination.

Contact Information for Further Support

For any questions or concerns regarding the RIFLE PRECISION MICROMETER BULLET SEATING DIES, please refer to the manufacturer's contact information provided on the packaging or product manual.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable reloading experience with your RIFLE PRECISION MICROMETER BULLET SEATING DIES. Thank you for your attention to safety, and happy reloading!
