

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 400 LEGEND RIFLE PRECISION MICROMETER BULLET SEATING DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your bullet seating die. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with the safe handling and operation of reloading equipment.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when using this product.
- Keep the product out of reach of children and unauthorized users.
- Do not use the product for purposes other than intended.
- Regularly inspect the product for any signs of wear or damage. Do not use if damaged.
- Store the product in a dry, secure location when not in use.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Improper use of the die can lead to personal injury or property damage.
- Ensure that the bullet seating die is properly adjusted before use to avoid bullet runout.

- **Avoiding Hazards:**

- Always doublecheck that the die is securely attached to the reloading press before operation.
- Do not exceed the recommended bullet seating depth as indicated in the product specifications.
- Use only compatible bullets and cases with this die to prevent malfunction or accidents.
- Never attempt to modify the die or its components.

- **Age and AudienceSpecific Warnings:**

- This product is intended for adult use only. It should not be used by individuals under the age of 18.
- Ensure that inexperienced users are supervised by a knowledgeable adult when using this product.

Instructions for Installation and Usage

1. Installation:

- Carefully read the product manual before installation.
- Securely attach the bullet seating die to your reloading press according to the manufacturer's instructions.
- Ensure that the micrometer thimble is easily readable and adjusted to the desired bullet seating depth.

2. Usage:

- Prepare your cases and bullets as per standard reloading practices.
- Insert a case into the shell holder and ensure it is seated correctly.

- Place the bullet in the case mouth and align it with the floating bullet guide.
- Adjust the micrometer thimble for precise bullet seating depth.
- Gently lower the bullet seating stem until the bullet is seated to the desired depth.
- Check the seating depth with a caliper to ensure accuracy.
- Repeat the process for additional cartridges, ensuring consistent adjustments.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in household waste. Check with local waste management authorities for proper disposal methods.
- Ensure that all packaging materials are recycled or disposed of properly.

Contact Information for Further Support

For any safety inquiries or concerns regarding this product, please refer to the manufacturer's contact information provided with your purchase.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and productive reloading experience with your RIFLE PRECISION MICROMETER BULLET SEATING DIES.
