

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 224 VALKYRIE RIFLE PRECISION MICROMETER BULLET SEATING DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This product is designed to enhance your reloading experience while ensuring safety and precision. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

General Safety Guidelines

- Always wear appropriate safety gear, including eye protection and gloves, when handling reloading equipment.
- Keep the work area clean and free from obstructions to prevent accidents.
- Ensure that the product is used only for its intended purpose as specified in this guide.
- Store the product in a dry, secure location, out of reach of children and unauthorized users.
- Regularly inspect the product for wear or damage. Do not use if any parts are damaged.
- Follow local laws and regulations regarding the use and storage of ammunition and reloading equipment.

Specific Safety Precautions for Use

- Ensure that the micrometer bullet seating die is properly installed before use.
- Do not exceed the recommended seating depth for the specific bullet being used.
- Avoid adjusting the seating die while in operation to prevent injury.
- Only use compatible cartridges with the bullet seating die.
- Be cautious of any sharp edges on the die and handle with care to prevent cuts.
- Keep hands and other body parts clear of the die's moving parts during operation.

Instructions for Installation and Usage

1. Installation:

- Ensure the reloading press is securely mounted and stable.
- Thread the micrometer bullet seating die into the press until it is snug but do not overtighten.
- Insert the appropriate shell holder into the press, ensuring it is seated properly.
- Adjust the seating depth by turning the micrometer thimble to the desired measurement.

2. Usage:

- Place a cartridge case into the shell holder.
- Insert the bullet into the case mouth, ensuring proper alignment.
- Pull the handle of the press to seat the bullet. Monitor the process to ensure accurate seating.
- After seating, check the cartridge for proper bullet depth and alignment.
- If necessary, make further adjustments to the seating depth using the micrometer thimble.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check with local waste management authorities for proper disposal methods.
- Ensure that all materials are disposed of in an environmentally friendly manner.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please consult your local dealer or visit the manufacturer's website for additional resources and support.

By following these safety instructions, you can ensure a safe and effective reloading experience with the RIFLE PRECISION MICROMETER BULLET SEATING DIES. Thank you for your attention to safety and responsible use of this product.
