

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 25 CREEDMOOR RIFLE PRECISION MICROMETER BULLET SEATING DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This product is designed to provide precision and accuracy for your reloading needs. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for use and maintenance.
- Ensure that the product is used in a wellventilated area to avoid inhalation of any harmful particles.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product before each use for any signs of damage or wear.
- Use personal protective equipment (PPE) such as safety glasses and gloves when using this product.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about any product recalls or safety alerts through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the micrometer thimble and body are clean and free from debris before use.
- Always adjust the micrometer slowly to avoid sudden movements that could lead to misalignment or injury.
- Do not exceed the recommended bullet seating depth as indicated in the product specifications.
- Use only compatible cartridges as specified in the product documentation.
- Avoid using excessive force when seating bullets to prevent damage to the die or bullet.
- Ensure proper alignment of the bullet guide and shell holder before seating bullets.
- When reversing the floating bullet guide for crimping, follow the instructions carefully to avoid injury.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Insert the bullet seating die into the press and tighten it according to the manufacturer's specifications.
- Attach the shell holder compatible with the 25 Creedmoor cartridge to the press.

2. Usage:

- Place a case into the shell holder and ensure it is seated properly.
- Adjust the micrometer thimble to the desired bullet seating depth.
- Insert the bullet into the case mouth, ensuring it is aligned with the floating bullet guide.
- Slowly lower the press handle to seat the bullet. Monitor the seating depth using the micrometer.
- After seating, inspect the cartridge for proper depth and alignment.
- Repeat the process for additional cartridges, ensuring consistent settings.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the product is no longer usable, ensure it is disposed of in a manner that prevents any potential hazards.

- Check with local waste management authorities for specific disposal guidelines for metal and other materials.

Contact Information for Further Support

For any inquiries regarding safety or usage of the RIFLE PRECISION MICROMETER BULLET SEATING DIES, please refer to the manufacturer's website or contact their customer service for assistance.

By following these safety instructions, you will ensure a safer and more effective reloading experience. Thank you for your attention to these guidelines.
