

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 218 BEE RIFLE PRECISION MICROMETER BULLET SEATING DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Attributes

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES from LEE PRECISION. This guide provides important safety instructions to ensure the safe use of this product. Please read this guide carefully before using the product to avoid potential hazards.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to seat bullets in reloading cartridges.
- Always follow the manufacturer's instructions and guidelines.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before each use.
- Do not modify the product in any way; modifications can compromise safety and performance.
- Use appropriate personal protective equipment (PPE), such as safety glasses, when using this product.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Use the product in a wellventilated area to avoid inhalation of any dust or debris.
- Ensure that the micrometer adjustments are made carefully to prevent sudden movements that may cause accidents.
- Avoid using excessive force when seating bullets to prevent damage to the bullet or die.
- Be aware of the potential for lead exposure when handling bullets; wash hands thoroughly after use.
- Store the product in a dry and secure location to prevent damage and unauthorized access.
- Do not use the product if you are under the influence of drugs or alcohol.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure you have the correct caliber and type of bullets for your reloading needs.

2. Installation:

- Securely mount the bullet seating die in your reloading press according to the manufacturer's instructions.
- Adjust the die to the desired depth using the laser engraved micrometer thimble for precise measurement.

3. Usage:

- Insert the cartridge case into the shell holder of the reloading press.
- Place the bullet into the case mouth, ensuring proper alignment.
- Activate the press to seat the bullet, monitoring for any resistance or unusual sounds.
- After seating, check the cartridge for proper bullet seating depth using a caliper or gauge.
- Repeat the process for each cartridge, maintaining consistent pressure and alignment.

4. PostUsage:

- Clean the die and press after use to remove any debris or residue.
- Store the product in its original packaging or a secure location to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of bullets or cartridge cases in regular household waste; check for local recycling programs or hazardous waste disposal options.
- Ensure that any lead components are handled and disposed of safely to prevent environmental contamination.

Contact Information for Further Support

For any inquiries or concerns regarding the RIFLE PRECISION MICROMETER BULLET SEATING DIES, please contact your local distributor or the manufacturer directly. Ensure to have the product details and any relevant information ready for a more efficient response.

By following these guidelines, you can ensure a safe and effective experience with the RIFLE PRECISION MICROMETER BULLET SEATING DIES. Always prioritize safety and adhere to best practices while using this product.
