LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This product is designed to enhance the accuracy and efficiency of your reloading process. To ensure safe and effective use, please read this safety instruction guide carefully before using the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe operation.
- Ensure you are familiar with the local laws and regulations regarding ammunition reloading and use.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check the EU's Safety Gate platform for any recall updates related to this product.

Specific Safety Precautions for Use

- Use only with compatible cartridges as specified (7 mm WSM).
- Ensure the work area is wellventilated and free from flammable materials.
- Always wear appropriate safety gear, including eye protection and gloves, when using this product.
- Do not exceed the recommended bullet seating depth to avoid potential hazards.
- Handle all components carefully to avoid injury or damage.
- Ensure that the bullet seating die is securely attached to the reloading press before use.

Instructions for Installation and Usage

1. Installation

- Begin by securing the bullet seating die into your reloading press according to the manufacturer's instructions.
- Ensure the die is tightened properly to prevent any movement during operation.

2. Preparation

- Inspect the bullet seating die for any damage or wear before use.
- Clean the die and ensure there are no obstructions in the bullet guide.

3. Seating Bullets

- Insert the case into the shell holder and ensure it is held firmly in place.
- Place the bullet into the case mouth, ensuring it is aligned correctly.
- Adjust the micrometer thimble to the desired bullet seating depth, referring to the engraved divisions for precision.
- Slowly lower the bullet seating stem until it contacts the bullet and apply steady pressure to seat it.
- Check the seating depth with a caliper to ensure it meets your specifications.

4. Crimping (if applicable)

- If crimping is required, follow similar steps as above, ensuring the floating bullet guide is set

appropriately for simultaneous seating and crimping.

5. **PostUse**

- After use, clean the die to prevent residue buildup.
- Store the bullet seating die in a dry and safe location away from children.

Disposal Instructions

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of materials in a manner that could harm the environment or public safety.

Contact Information for Further Support

For additional support or inquiries regarding safety and usage, please refer to the manufacturer's website or customer service channels.

By following these guidelines, you can ensure a safe and effective experience while using the RIFLE PRECISION MICROMETER BULLET SEATING DIES. Thank you for your attention to safety and compliance with EU regulations.
