

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 300 REM ULTRA MAG RIFLE PREC MICROMETER BULLET SEAT DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for LEE Precision Micrometer Bullet Seating Dies

Introduction

Thank you for choosing the LEE Precision Micrometer Bullet Seating Dies. This product is designed to enhance your reloading experience while ensuring safety and precision. This guide provides essential safety instructions and guidelines to help you use the product effectively and safely in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the product instructions before use.
- Ensure that the workspace is clean, dry, and wellventilated.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as described in the manual.
- Regularly inspect the product for wear, damage, or defects before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**

- Be aware of potential hazards such as sharp edges, moving parts, and small components that could pose choking risks.
- Ensure that the product is used in a way that does not compromise its structural integrity.

- **Avoiding Hazards:**

- When adjusting the micrometer, do so carefully to prevent injury.
- Always wear appropriate safety gear, such as safety glasses, when using the product.
- Do not attempt to modify or repair the product yourself; seek professional assistance if needed.

- **AgeSpecific Warnings:**

- This product is not intended for use by individuals under the age of 18. Adult supervision is recommended when used near younger individuals.

Instructions for Installation and Usage

- **Installation:**

1. Ensure that the reloading press is securely mounted and stable.
2. Attach the bullet seating die to the press according to the manufacturer's instructions.
3. Adjust the die height to align with the shell holder for proper seating depth.

- **Usage:**

1. Select the appropriate bullet and case for your reloading needs.
2. Insert the case into the shell holder and ensure it is seated correctly.
3. Place the bullet into the case mouth, ensuring proper alignment.
4. Slowly lower the ram to seat the bullet using the micrometer adjustment for precise depth.

5. After seating, inspect the cartridge for proper seating depth and alignment.
6. Store the product in a safe location when not in use.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in general waste; check for recycling options for metal and plastic components.
- Ensure that any hazardous materials are handled and disposed of safely.

Contact Information for Further Support

For further support or inquiries regarding safety, please refer to the contact information provided with the product packaging or visit the manufacturer's website.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the LEE Precision Micrometer Bullet Seating Dies. Thank you for prioritizing your safety and the safety of others.
