LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

RIFLE PRECISION MICROMETER BULLET SEATING DIES Safety Instruction Guide

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This product is designed for precision bullet seating in reloading applications. To ensure your safety and the effective use of this product, please read and follow this safety instruction guide carefully.

General Safety Guidelines

- Always ensure that all safety precautions are followed when handling reloading equipment.
- This product is intended for adult use only. Keep out of reach of children.
- Regularly inspect the die for any signs of damage or wear before use.
- Use only compatible cartridges as specified in the product specifications.
- Store the die in a dry, secure location to prevent unauthorized access and damage.

Specific Safety Precautions for Use

- Before using the die, ensure that you are familiar with the reloading process and the specific requirements for your firearm.
- Always wear appropriate protective gear, including safety glasses, when using reloading equipment.
- Avoid distractions while reloading to maintain focus and precision.
- Do not exceed the recommended bullet seating depth as specified in your reloading manual to prevent dangerous overpressure situations.
- Always check for proper alignment of the bullet and case before seating to avoid misfires or accidents.
- If you notice any unusual sounds or resistance during operation, stop using the die immediately and inspect for issues.

Instructions for Installation and Usage

1. Installation:

- Securely attach the bullet seating die to your reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to avoid any movement during operation.

2. Usage:

- Prepare your cartridge case and bullet according to your reloading manual.
- Insert the cartridge case into the shell holder of your reloading press.
- Adjust the micrometer thimble to the desired bullet seating depth. Ensure the reading is clear and accurate.
- Place the bullet into the case mouth, ensuring it is properly aligned.
- Activate the reloading press to seat the bullet. Monitor the process closely to ensure proper seating.
- After seating, check the overall cartridge length and bullet seating depth for consistency.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not throw away the die in regular household waste. Instead, take it to a designated recycling center that accepts metal products.

Contact Information for Further Support

For any safety inquiries or support regarding the RIFLE PRECISION MICROMETER BULLET SEATING DIES, please refer to the contact details provided in the product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure a safe and effective reloading experience with your RIFLE PRECISION MICROMETER BULLET SEATING DIES. Thank you for prioritizing safety in your reloading practices.
