Safety Instruction Guide for CARBIDE FACTORY CRIMP MICROMETER SEATER ADAPTERS

Introduction

Thank you for choosing the CARBIDE FACTORY CRIMP MICROMETER SEATER ADAPTERS from LEE PRECISION. This product is designed to enhance your reloading experience by providing precise bullet seating and crimping capabilities. To ensure safe and effective use of this product, please read and follow the safety guidelines and instructions outlined in this guide.

General Safety Guidelines

- Always handle the CARBIDE FACTORY CRIMP MICROMETER SEATER ADAPTERS with care to prevent injury.
- Ensure that you are familiar with the operation of your reloading press before using the adapter.
- Store the adapter in a dry and safe location, away from children and unauthorized users.
- Regularly inspect the adapter for signs of wear or damage before each use.
- Do not use the adapter for any purpose other than its intended use as specified in this guide.
- Always wear appropriate safety gear, such as safety glasses, when reloading ammunition.

Specific Safety Precautions for Use

- Before installation, make sure the reloading press is turned off and unplugged.
- Ensure that the reloading workspace is clean and free from obstructions.
- Do not exceed the recommended cartridge specifications for the adapter.
- Be cautious of any sharp edges on the adapter during handling and installation.
- Keep hands and loose clothing away from moving parts of the reloading press while in operation.
- If you experience any difficulties during use, stop immediately and consult the troubleshooting section of your reloading press manual.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the CARBIDE FACTORY CRIMP MICROMETER SEATER ADAPTERS and your Lee Carbide Factory Crimp die.
- Ensure that your reloading press is clean and set up properly.

2. Installation:

- Remove the stock adjusting screw from your Lee Carbide Factory Crimp die.
- Select the appropriate cartridgespecific adapter for your needs.
- Carefully insert the cartridgespecific adapter into the die, ensuring it is seated correctly.
- Securely fasten the adapter in place according to the manufacturer's instructions.

3. Usage:

- Set the desired bullet seating depth using the micrometer feature of the adapter.
- Load the cartridge case into the reloading press and follow the standard reloading procedures.
- Operate the press to crimp and seat the bullet in one step, ensuring that you maintain a firm grip on the press handle.
- After seating, inspect the cartridge to confirm proper crimping and seating depth.

4. PostUsage:

- Clean the adapter after use to remove any residue or debris.
- Store the adapter in its original packaging or a designated storage container.
- Regularly check for any wear or damage and replace if necessary.

Disposal Instructions

- Dispose of any damaged or worn components of the adapter in accordance with local regulations.
- Do not dispose of the adapter in regular household waste if it is still in usable condition; consider donating or recycling if appropriate.
- Ensure that all components are disposed of safely to prevent any harm to the environment.

Contact Information for Further Support

For any questions or concerns regarding the CARBIDE FACTORY CRIMP MICROMETER SEATER ADAPTERS, please refer to the manufacturer's website or customer service resources for assistance.

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your CARBIDE FACTORY CRIMP MICROMETER SEATER ADAPTERS. Always prioritize safety and do not hesitate to seek help if needed. Thank you for your commitment to safe reloading practices.
