

FLAT TAKE DOWN LEVERS FOR SIG SAUER® P320 - TYRANT CNC

FLAT TAKE DOWN LEVER FOR SIG SAUER P320 GRAY

TYRANT CNC FLAT TAKE DOWN LEVERS FOR SIG SAUER® P320 Introducing the Enhanced Flat P320 Takedown Lever by Tyrant CNC — the ultimate holster-compatible upgrade for the Sig Sauer P320. Precision-engineered for flawless integration, this takedown lever is the definitive solution to common SIG P320 issues, including the frustrating problem of the lever getting stuck. Designed as a seamless, direct replacement, it elevates firearm functionality while enhancing compatibility with all holster types. Crafted from premium-grade steel and machined with exacting precision via CNC processes, the Enhanced Flat P320 Takedown Lever delivers unmatched reliability. A specialized heat-treatment process fortifies the lever's resilience, ensuring it outperforms standard factory components under the most demanding conditions. The bead-blasted surface finish strikes a perfect balance between aesthetics and practicality, enhancing grip security. A PVD coating further protects against wear and tear, preserving both the lever's integrity and sleek appearance over time. Tyrant CNC has redefined the takedown lever's geometry by increasing the surface area without compromising its low-profile design. This thoughtful enhancement allows for effortless manipulation—even when wearing gloves or operating under stress—streamlining disassembly and maintenance. Fully holster-compatible, the lever ensures smooth drawing and re-holstering with all holster types, eliminating interference or snagging. The expanded surface also functions as an additional thumb rest, offering improved stability and control for precise shooting in any condition. For discerning Sig Sauer P320 owners, the Enhanced Flat P320 Takedown Lever by Tyrant CNC is more than an accessory—it's a performance-driven upgrade that combines innovative design with functional excellence. Elevate the shooting experience and ensure peak performance in every scenario with this standout component.

Safety Instruction Guide for FLAT TAKE DOWN LEVERS FOR SIG SAUER® P320

Introduction

Thank you for choosing the Enhanced Flat P320 Takedown Lever by Tyrant CNC. This product is designed to enhance your firearm's functionality while ensuring safety and compatibility with various holster types. Please read this safety instruction guide carefully to ensure safe usage and compliance with EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle firearms with care and respect.
- Ensure that the firearm is unloaded before installing or using the takedown lever.
- Keep the takedown lever and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the takedown lever for wear and damage.
- In case of any malfunction or unusual behavior, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Ensure you are familiar with the operation of the Sig Sauer P320 before using the Enhanced Flat P320 Takedown Lever.
- Wear appropriate eye and ear protection when handling firearms.
- Always point the firearm in a safe direction when manipulating the takedown lever.
- Avoid using the takedown lever in wet or slippery conditions that may affect grip.
- If you experience difficulty operating the lever, do not force it. Instead, consult the installation instructions or seek professional assistance.

Instructions for Installation and Usage

Installation Instructions

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools (if any) for installation.

2. Remove the Existing Takedown Lever:

- Follow the manufacturer's guidelines for disassembling the Sig Sauer P320.
- Carefully remove the existing takedown lever from the firearm.

3. Install the Enhanced Flat P320 Takedown Lever:

- Align the new takedown lever with the designated slot.
- Gently press the lever into place until it is fully seated.

4. Reassemble the Firearm:

- Follow the manufacturer's reassembly instructions.
- Ensure all components are securely in place before proceeding.

5. Test Functionality:

- Before using the firearm, test the takedown lever to ensure it operates smoothly.
- Check for any unusual resistance or movement.

Usage Instructions

- To disassemble the firearm, ensure it is unloaded.
- Use the Enhanced Flat P320 Takedown Lever to release the slide as per the manufacturer's guidelines.
- Always follow safe firearm handling practices when using the takedown lever.

Disposal Instructions

- Dispose of the Enhanced Flat P320 Takedown Lever in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer in use, consult local recycling centers for proper disposal options.

Contact Information for Further Support

For any questions or concerns regarding the Enhanced Flat P320 Takedown Lever, please refer to the product packaging for contact information. Ensure you have the product details available when seeking assistance.

Conclusion

By following these safety instructions, you can enhance your shooting experience with the Enhanced Flat P320 Takedown Lever while ensuring compliance with safety regulations. Always prioritize safety and proper handling when using firearms. Thank you for choosing Tyrant CNC.
