

UNITY™ TACTICAL AXON™ SWITCH SYNC W/LINK™ USB-C/NGAL LASER LEADS - GBRS GROUP UNITY TACT AXON SWITCH SYNC/7" LINK USB-C/14" NGAL LASER BLK

GBRS GROUP UNITY™ TACTICAL AXON™ SWITCH SYNC W/LINK™ USB-C/NGAL LASER LEADS The pinnacle of remote switch design for weapon-mounted accessories, UNITY™ Tactical's AXON™ provides complete control of lights and lasers in a single, compact and rugged housing. AXON™ is the direct result of operational feedback from professional end-users on our industry-leading switch technology. Lights and lasers can be fired from individual buttons with versions available for popular issued devices. Standard AXON™ models feature each button firing devices independently. SYNC models fire the laser independently (flat button), while the angled button will fire both light and laser simultaneously. NGAL variants operate in a SYNC capacity, but offer a visible override feature for light and laser. AXON™ mounts directly to M1913 Rail or M-LOK® (w/ optional UNITY™ M-LOK® Mounting Kit), while the Rail Clamps feature pass-throughs for zip ties. Its unique design provides tactile differentiation between the two buttons to eliminate confusion in dark, cold and high-stress situations. The light (angled) button features a switch that allows for both momentary and constant activation, while the laser (flat) button features a momentary-only button that supports the laser's double-click-for-constant-on feature. GBRS Group is the exclusive retailer of AXON™ 10" and 14" models with extended-length cables, which complements use with our Hydra mount. GBRS offers AXON™ Mode Select models with 7" SureFire® cables or 7" Link™ USB-C with either 10" Crane cables, 14" Crane cables, or 14" NGAL cables. SPECS Rail Mount: MIL-STD M1913, M-LOK® (w/ optional UNITY™ M-LOK® Mounting Kit) Dimensions: 1.3"W x 2.8"L x 1.1"H (3.3 x 7.1 x 2.8 cm) Weight: 1.7 oz (48.2g) Material: High-Impact Polymer Cable Length: 7" SureFire® Cable / 10" Crane Cable, 7" SureFire® Cable / 14" Crane Cable, 7" SureFire® Cable / 14" NGAL Cable (Mode Select), 7" Link™ USB-C Cable / 10" Crane Cable, 7" Link™ USB-C Cable / 14" Crane Cable, or 7" Link™ USB-C Cable / 14" NGAL Cable (Mode Select) Recommended Torque: 5 In./Lbs (0.57 Nm) COMPATIBILITY Link™ USB-C System NGAL (LA-23/PEQ) WARRANTY: One-Year Warranty through UNITY™ Tactical. Safety Instruction Guide for UNITY Tactical AXON Switch Sync

Introduction

Thank you for choosing the UNITY Tactical AXON Switch Sync. This guide provides essential safety information and instructions for the safe use and installation of this product. Please read this guide thoroughly before using the device to ensure safe operation and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- **Product Safety:** Ensure the device is used only for its intended purpose. Follow all safety instructions to minimize risks.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices regarding this product. You can check the EU's Safety Gate platform for updates.
- **Online Shopping:** If purchased online, ensure the seller complies with safety requirements equivalent to those in physical stores.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach of minors.
- **EU Contact Point:** For any safety-related inquiries, please refer to the manufacturer's contact details provided with the product.
- **Rapid Alerts:** Be aware of the Safety Gate system, which provides timely updates on unsafe products.

Specific Safety Precautions for Use

- **Electrical Safety:** Ensure all connections are secure and free of moisture before operating the device.
- **Environmental Conditions:** Use the product in dry conditions and avoid exposure to extreme temperatures or humidity.
- **Avoid Misuse:** Do not use the switch for purposes other than controlling lights and lasers. Misuse may lead to malfunction or accidents.
- **Inspection:** Regularly inspect the device for any signs of damage or wear. Do not use if any components appear damaged.
- **Emergency Use:** Familiarize yourself with the emergency features, such as the momentary activation switch, to ensure quick response in critical situations.

Instructions for Installation and Usage

Installation

1. Mounting the Device:

- Ensure the mounting surface is clean and dry.
- Attach the AXON Switch Sync to the M1913 Rail or MLOK using the appropriate mounting kit.
- Use the provided torque specifications (5 In./Lbs or 0.57 Nm) to secure the device.

2. Connecting Cables:

- Choose the appropriate cable length for your setup (7" SureFire Cable, 10" Crane Cable, etc.).
- Connect the cable securely to the device and the weapon-mounted accessory.

Usage

1. **Operating the Switch:**

- **Light Activation:** Use the angled button for momentary or constant activation of the light.
- **Laser Activation:** Use the flat button for momentary laser activation. Doubleclick for constanton feature.
- **Simultaneous Activation:** Use the angled button to activate both light and laser together.

2. **Safety Features:**

- Ensure tactile differentiation between buttons to avoid confusion in lowlight or highstress situations.
- Always test the device in a safe environment before operational use.

Disposal Instructions

- **Disposal of Device:** At the end of its life cycle, dispose of the product in accordance with local regulations for electronic waste.
- **Recycling:** Consider recycling components where applicable to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the UNITY Tactical AXON Switch Sync, please refer to the manufacturer's website or product documentation for contact details.

By following these guidelines, you can ensure the safe and effective use of your UNITY Tactical AXON Switch Sync. Thank you for your attention to safety!
