

LEG STRAP KITS - GBRS GROUP LEG STRAP KIT MULTICAM BLACK

GBRS GROUP LEG STRAP KIT Leg straps first saw widespread use with early American open-top, western-style holsters during the late 1800s and continued to gain popularity during the 20th century. These early straps usually took the form of a simple leather or cord tie-down and eventually evolved into the wider webbing type straps popularized by the British SAS holsters developed during the 1970s. The remaining two decades of the twentieth century witnessed marginal improvements and design variations of tactical holsters, as militaries reluctantly abandoned antiqued leather designs. Leg strap conversions for the US military-issued UM-84/M12 holsters appeared sometime during the late 1980's/early 1990s, and the commercial market began to introduce nylon drop leg holsters utilizing two leg straps. During the early years of the GWOT, nearly every drop leg holster on the battlefield featured two leg straps, with many shooters choosing to remove the top strap completely due to chaffing and comfort issues. Today, the majority of America's top shooters choose to run a mid-ride level of drop for their holster, just slightly below the belt line. This has been found to be the ideal location for the pistol to clear body armor and vest-mounted pouches. Although some shooters have turned away from leg straps completely, many still prefer the added stability and reduced movement of their holster by utilizing a leg strap.

The GBRS Leg Strap, along with the GBRS Group Leg Strap Screw Kit (sold separately), attaches directly onto the True North Concepts MHA (and most other drop-down holster adapters) and, for the first time in the history of holsters, allows the shooter to choose the height where the leg strap sits. The GBRS leg strap features a unique design that eliminates the need for an external bracket. The MHA attaches directly to the Tegriss reinforcement, which is seamlessly integrated into the strap's construction. Finally, the shooter can choose the best position for their individual body size and comfort, custom tailoring their setup to their specific needs. Each GBRS Leg strap is made with Tegriss, squadron laminate, adjustable 1" latch ladderloc buckle, 1" triglide, and poly elastic. The minimalistic leg strap provides a generous amount of flexibility, and it is recommended that the user try out several height adjustments to see which is most ideal before securing.

SPECIFICATIONS 6 Layer Tegriss Squadron laminate strap ITW GTSR Latch Ladderloc adjustable buckle 1" ITW Triglide ITW GTSR Body loop fixed buckle Poly 041 Elastic

COMPATIBILITY True North Concepts MHA and most other drop-down holster adapters It is recommended to use the GBRS Group Leg Strap Screw Kit (sold separately) for mounting.

GBRS Group Leg Strap Kit User Safety Instructions

Introduction

Thank you for choosing the GBRS Group Leg Strap Kit in Multicam Black. This product is designed for tactical use and aims to enhance your holster's stability and comfort. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- **Product Safety:** Always ensure the leg strap is used as intended to prevent accidents or injuries.
- **Enhanced Recalls:** Stay informed about recalls and safety notices related to this product. Regularly check the EU's Safety Gate platform for updates.
- **Online Shopping:** When purchasing online, ensure that the seller complies with EU safety regulations.
- **Special Consumer Focus:** This product is not intended for use by children. Keep it out of reach to avoid potential hazards.
- **EU Contact Point:** For any safety inquiries, please refer to the EU-based contact point provided by the manufacturer.
- **Rapid Alerts:** Be aware of any rapid alerts regarding unsafe products through the Safety Gate system.

Specific Safety Precautions for Use

- **Compatibility:** Ensure that the GBRS Leg Strap Kit is compatible with your holster and dropdown adapter. Use the GBRS Group Leg Strap Screw Kit for secure mounting.
- **Adjustments:** Before securing the strap, adjust it to find the most comfortable height. Test multiple adjustments to ensure optimal fit and stability.
- **Inspection:** Regularly inspect the leg strap for wear and tear. Replace it if you notice any damage that could compromise safety.
- **Comfort:** If you experience discomfort or chafing, consider adjusting the strap or consulting a professional for fitting advice.
- **Training:** Familiarize yourself with the leg strap's features and how it interacts with your holster before engaging in tactical activities.

Instructions for Installation and Usage

1. Installation:

- Ensure you have the GBRS Group Leg Strap Screw Kit (sold separately) for mounting.
- Attach the leg strap to the True North Concepts MHA or compatible dropdown holster adapter.
- Adjust the strap height according to your preference and secure it properly.

2. Usage:

- Once the strap is installed, wear the holster as intended, ensuring that the leg strap is snug but not overly tight.
- Adjust the strap as necessary for comfort during use.
- Monitor for any signs of discomfort or instability while using the leg strap.

Disposal Instructions

- Dispose of the GBRS Leg Strap Kit responsibly. If the product is damaged or no longer needed, follow local regulations for the disposal of textile and plastic materials.

- Do not dispose of the product in regular household waste. Instead, consider recycling options available in your area.

Contact Information for Further Support

For further assistance, please refer to the manufacturer's website or the EU contact point for safety inquiries related to the GBRS Group Leg Strap Kit.

By following these safety instructions, you can ensure a safe and effective experience with your GBRS Group Leg Strap Kit. Thank you for your attention to safety and for choosing our product.
