

# SINCLAIR POLISHING MEDIA - SINCLAIR INTERNATIONAL BRASS CASE BRITE MEDIA, UNTREATED CORN COB, 5 POUNDS

[Reloading](#) > [Case Cleaning](#) > [Tumbling Media & Additives](#)

Our treated media is ground corn cob blended with industrial-grade cleaning and polishing agents. Works extremely well on recently fired cases as well as older dirty case. The untreated media is ground corn cob that is great to use as a final dry polish, but also can be blended with your favorite additive like Rooster Bright Case Polish, Flitz Tumbler Media Additive and Lucas Oil Gun Metal Polish to make a great cleaning media.

# Safety Instruction Guide for Sinclair Polishing Media

## Introduction

Thank you for choosing Sinclair Polishing Media. This guide provides essential safety instructions to ensure your safe and effective use of our product. Please read this document carefully before using the polishing media to understand the necessary precautions and procedures.

## General Safety Guidelines

- Always keep the polishing media out of reach of children and pets.
- Use the product in a wellventilated area to avoid inhaling dust particles.
- Wear protective eyewear and a dust mask when handling the polishing media to prevent irritation to your eyes and respiratory system.
- Store the polishing media in a cool, dry place away from direct sunlight and moisture.
- Do not ingest the polishing media. It is not food and can be harmful if swallowed.
- In case of accidental contact with eyes, rinse immediately with plenty of water and seek medical advice if irritation persists.
- Report any unsafe product conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure that all equipment used with the polishing media is clean and free of contaminants before use.
- Avoid mixing the polishing media with incompatible substances or chemicals.
- Do not use the polishing media in any manner that is not intended or recommended.
- Follow the manufacturer's instructions for any additives used in conjunction with the polishing media.
- If you experience any adverse reactions while using the product, discontinue use immediately and consult a medical professional.

## Instructions for Installation and Usage

### • Preparation:

- Gather all necessary materials, including the polishing media, equipment, and any additives you wish to use.
- Ensure your work area is clean and organized to prevent accidents.

### • Using the Polishing Media:

- Measure out the desired amount of untreated corn cob polishing media for your application.
- If blending with additives, follow the specific instructions provided for each additive.
- Load the polishing media into your tumbling equipment according to the manufacturer's instructions.
- Run the tumbling equipment as per the recommended time and speed settings for optimal results.

### • PostUse Care:

- After completing the polishing process, carefully remove the polished items from the equipment.
- Dispose of used polishing media according to local regulations and guidelines.
- Clean all equipment thoroughly after use to prevent contamination.

## **Disposal Instructions**

- Dispose of unused or expired polishing media in accordance with local waste disposal regulations.
- Do not dispose of the polishing media in regular household waste if local laws require special handling.
- Check with local authorities for specific disposal guidelines related to polishing media.

## **Contact Information for Further Support**

For any safety inquiries, product information, or assistance, please reach out to the manufacturer or your local distributor. They can provide you with the necessary support and guidance.

By following these safety instructions, you can ensure a safe and effective experience with Sinclair Polishing Media. Thank you for your attention to these important guidelines.
