

# COMPETITION BUSHING NECK DIES - COMPETITION BUSHING NECK DIE 6MM REM

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

## Attributes

- Name: COMPETITION BUSHING NECK DIE 6MM REM
- Manufacturer: REDDING
- Product no.: 749007424
- Mfr. No.: 56115
- Cartridge: 6 mm Remington

# Competition Bushing Neck Die Safety Instructions

## Introduction

Thank you for choosing the Competition Bushing Neck Die 6MM Rem. This product is designed to help you resize your cartridge cases with precision. To ensure safe and effective use of this product, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always ensure that your workspace is clean and free from obstructions before using the die.
- Wear appropriate safety gear, including safety glasses, to protect your eyes from potential debris.
- Keep the die and all related tools out of reach of children and pets.
- Be aware of your surroundings and ensure that no one is in close proximity while you are using the die.
- Regularly inspect the die for any signs of wear or damage before each use.
- Follow the manufacturer's instructions for use and maintenance to ensure optimal performance and safety.

## Specific Safety Precautions for Use

- Ensure that the cartridge case you are resizing is free from obstructions and is properly aligned in the die.
- Do not exceed the recommended size limits for the die to avoid damage to the die and cartridge cases.
- Avoid forcing the cartridge case into the die; if it does not fit easily, stop and check for obstructions or misalignment.
- Use the micrometer adjustment carefully to avoid oversizing the case neck.
- Always use the die in a wellventilated area to minimize exposure to any fumes or particles generated during the resizing process.

## Instructions for Installation and Usage

### 1. Installation:

- Securely mount the die in your reloading press according to the manufacturer's instructions.
- Ensure that the decapping rod is properly aligned and functioning before use.
- Select the appropriate sizing bushing for your cartridge case and install it into the die.

### 2. Usage:

- Insert the cartridge case into the die, ensuring it is fully supported and aligned with the sizing bushing.
- Gradually apply pressure to the handle of your reloading press to initiate the resizing process.
- Monitor the alignment of the cartridge case as it moves upward, ensuring that the resizing bushing selfcenters on the case neck.
- Adjust the micrometer setting as needed to achieve the desired neck length.
- Once the resizing is complete, carefully remove the cartridge case from the die.

## Disposal Instructions

- Dispose of any damaged or worn components of the die in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.
- Do not dispose of the die or any parts in regular household waste.

## Contact Information for Further Support

For any questions or concerns regarding the use of the Competition Bushing Neck Die, please consult the manufacturer or authorized dealer for assistance. It is important to ensure that you have access to support and information regarding the safety and performance of this product.

By following these safety instructions, you can ensure a safe and effective reloading experience with your Competition Bushing Neck Die. Thank you for your attention to safety and for choosing our product.
