

# COMPETITION BUSHING NECK DIES - COMPETITION BUSHING NECK DIE 6.5-284 NORMA

Similar in design concept to Reddings Competition Seating Die, the cartridge case is completely supported and aligned with the sizing bushing before the sizing process begins. As the sizing process starts, the cartridge case remains supported in the tightly chambered, sliding sleeve as it moves upward while the resizing bushing self-centers on the case neck. The decapping rod is maintained in precise alignment by using the internal parts of the die as a linear support much like that of a firing pin. Meanwhile, the micrometer adjustment of the bushing position delivers precise control to the desired amount of neck length to be sized. These dies were designed for use by Competition Shooters who have meticulously prepared their cartridge cases and do not wish to use a sizing button, however, carbide size button kits are available separately. Bushings and shellholders sold separately

## Attributes

- Name: COMPETITION BUSHING NECK DIE 6.5-284 NORMA
- Manufacturer: REDDING
- Product no.: 749007723
- Mfr. No.: 56415
- Cartridge: 6.5 mm - 284 Norma
- Die Style: Neck Die
- Delivery weight: 0.363kg
- Shipping height: 41mm
- Shipping width: 112mm
- Shipping length: 152mm
- UPC: 611760564154

# Safety Instruction Guide for Competition Bushing Neck Die 6.5284 Norma

## Introduction

Thank you for choosing the Competition Bushing Neck Die 6.5284 Norma by Redding. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this manual carefully before using the die to avoid potential hazards and ensure optimal performance.

## General Safety Guidelines

- Always ensure that the die is used in accordance with the manufacturer's instructions.
- Inspect the die for any damage before use. Do not use if damaged.
- Keep the die and all related tools out of reach of children and vulnerable individuals.
- Use proper personal protective equipment (PPE) such as safety glasses and gloves when operating the die.
- Be aware of your surroundings and ensure a clean workspace to prevent accidents.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the cartridge case is properly aligned in the die before starting the resizing process.
- Do not attempt to resize cases that are excessively damaged or worn.
- Avoid using excessive force during the resizing process to prevent injury or damage to the die.
- Always use the die in a wellventilated area to minimize exposure to any potential fumes or contaminants.
- Be cautious of the resizing bushing, as it may become hot during use. Allow it to cool before handling.
- If using carbide size button kits, ensure they are compatible with the die model.

## Instructions for Installation and Usage

### 1. Installation:

- Securely mount the die in a reloading press according to the manufacturer's instructions.
- Ensure that the die is tightened properly to prevent movement during use.

### 2. Usage:

- Insert the cartridge case into the die, ensuring it is fully seated.
- Adjust the micrometer setting to the desired neck length for resizing.
- Slowly raise the handle of the reloading press to initiate the resizing process.
- Monitor the case as it moves upward, ensuring it remains aligned and supported by the sliding sleeve.
- After resizing, carefully remove the cartridge case from the die.
- Inspect the resized case for any defects or issues before proceeding to the next step in your reloading process.

## Disposal Instructions

- Dispose of any damaged or unusable parts of the die in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.
- Do not discard the die in regular household waste if it is still usable. Consider donating or selling it to another user.

## Contact Information for Further Support

For any questions or concerns regarding the Competition Bushing Neck Die 6.5284 Norma, please refer to the manufacturer's contact information provided with the product. Ensure you have the necessary product details on hand for efficient assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your Competition Bushing Neck Die. Thank you for your attention to these important safety measures.
