

CARBIDE GRX PUSH THRU BASE SIZING DIE - REDDING 40 S&W

CARBIDE GRX PUSH THRU SIZE DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

This Push Thru die is designed to completely eliminate bulges near the case base, common in 40 S&W brass. By passing the case completely through the dies, the bulge is removed and the brass may be returned to service. The GRX die is currently only available for 40 S&W.

CARBIDE GRX PUSH THRU BASE SIZING DIE

SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the CARBIDE GRX PUSH THRU BASE SIZING DIE for your reloading needs. This product is designed to help you achieve optimal performance by eliminating bulges near the case base in 40 S&W brass. Please read this safety instruction guide carefully to ensure safe and effective use of the die.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using this die.
- Always wear appropriate safety gear, including safety glasses and gloves, when reloading ammunition.
- Keep the work area clean and organized to prevent accidents.
- Store the die in a safe, dry place when not in use to avoid damage.
- Do not use the die for any purpose other than its intended use.
- Always follow the manufacturer's guidelines for reloading practices.

Specific Safety Precautions for Use

- Inspect the die for any signs of wear or damage before each use. Do not use if damaged.
- Ensure that the die is securely mounted in your reloading press before use.
- Do not exceed recommended load limits as specified in reloading manuals.
- Avoid distractions while using the die to maintain focus and prevent accidents.
- Keep children and pets away from the reloading area to prevent injury.

Instructions for Installation and Usage

1. Installation

- Remove the die from its packaging and inspect for any damage.
- Securely mount the die in your reloading press according to the press's instructions.
- Ensure that the die is adjusted correctly for the specific case size you are working with.

2. Usage

- Prepare the brass cases by cleaning them to remove any dirt or debris.
- Insert the brass case into the die, ensuring it is properly aligned.
- Operate the reloading press to push the case completely through the die.
- Remove the resized case and inspect it for proper sizing.
- Repeat the process for additional cases as needed.

Disposal Instructions

- Dispose of any damaged or wornout dies according to local regulations.
- Do not throw the die in regular household waste; check for recycling options in your area.
- Ensure that all materials associated with reloading are disposed of safely to prevent environmental contamination.

Contact Information for Further Support

For any safety inquiries or support regarding the CARBIDE GRX PUSH THRU BASE SIZING DIE, please contact the manufacturer or your local distributor. Ensure you have the product details available for reference.

Important Note: This guide is designed to help you use the CARBIDE GRX PUSH THRU BASE SIZING DIE safely and effectively. Always stay informed about product recalls and safety updates through the EU's Safety Gate platform. Report any unsafe products or accidents to the appropriate authorities to help ensure the safety of all consumers.
