

MEC 600 JR MARK V SHOT SHELL PRESS - 600 JR. MARK 5 SINGLE STAGE PRESS 12 GAUGE 2-3/4"-3"

The MEC 600 Jr. has features normally found only on the high-end models making it one of the most popular, economical single-stage shotshell reloaders on the market today. Fast and efficient operation allows loading eight to ten boxes per hour, plus easily upgrades to the 285 CA primer feed system, which eliminates the need to handle each primer individually. Adjustable for 3" shells, and available in 12, 20, 28 gauge and .410 bore. Includes 1 Charge Bar & 3 Powder Bushings.

MEC 600 JR MARK V SHOT SHELL PRESS Safety Instruction Guide

Introduction

Thank you for choosing the MEC 600 Jr. Mark V Shot Shell Press. This guide provides essential safety instructions and operational guidelines to ensure safe and efficient use of the product. Please read this manual carefully before using the press and keep it for future reference.

General Safety Guidelines

- Always wear appropriate safety gear, including eye protection and gloves, when operating the press.
- Ensure that the work area is clean and free from clutter to prevent accidents.
- Keep all tools and materials out of reach of children and unauthorized individuals.
- Do not use the press for any purpose other than its intended use.
- Follow all local laws and regulations regarding the reloading of ammunition.
- Regularly inspect the press for any signs of wear or damage before use.
- If you notice any unusual noises or malfunctions during operation, stop using the press immediately and seek assistance.

Specific Safety Precautions for Use

- Ensure that the press is securely mounted to a stable work surface before use.
- Do not overload the press beyond its specified capacity.
- Always use the correct gauge and type of shotshell for the press.
- Handle primers with care, as they can be sensitive to impact and friction.
- Store components, such as powders and primers, in a cool, dry place away from direct sunlight and heat sources.
- Avoid distractions while operating the press to maintain focus and control.
- Keep your hands and clothing away from moving parts during operation.

Instructions for Installation and Usage

Installation

1. Select a sturdy, flat work surface to mount the press.
2. Securely attach the press to the work surface using appropriate fasteners.
3. Ensure that the press is level and stable before proceeding.

Usage

1. Loading Shells:

- Adjust the press for the desired shell length (23/4" or 3").
- Insert the appropriate charge bar and powder bushing as needed.
- Place the empty shell onto the shell holder.
- Follow the manufacturer's instructions for loading powder, wads, and shot.

2. Operating the Press:

- Pull the handle smoothly to complete the reloading cycle.
- Ensure that each step is completed before proceeding to the next.
- Monitor the flow of materials to avoid jams or misloads.

3. PostUse:

- Clean the press after each use to maintain its condition and performance.
- Store the press and all components in a secure location, away from children.

Disposal Instructions

- Dispose of any unused or expired components in accordance with local regulations.
- Do not dispose of primers or powder in regular trash. Contact local waste management authorities for proper disposal methods.
- Recycle any metal parts of the press according to local recycling guidelines.

Contact Information for Further Support

For any questions or concerns regarding the MEC 600 Jr. Mark V Shot Shell Press, please refer to the manufacturer's website or customer service for assistance. Always consult the product's warranty and support documentation for additional resources.

Thank you for prioritizing safety and responsible use of the MEC 600 Jr. Mark V Shot Shell Press. Enjoy your reloading experience!
