# Lyman 1200 PRO TUMBLER Safety Instructions

## Introduction

Thank you for choosing the Lyman 1200 Pro Tumbler. This product is designed for efficient cleaning of cartridge cases, ensuring a smooth and quiet operation. To ensure your safety and the proper functioning of the tumbler, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the tumbler according to the manufacturer's instructions.
- Ensure that the tumbler is used in a wellventilated area.
- Keep the tumbler out of reach of children and pets.
- Do not use the tumbler for any purpose other than its intended use.
- Regularly inspect the tumbler for any signs of damage or wear.
- In case of any malfunction, discontinue use immediately and consult the manufacturer.

## Specific Safety Precautions for Use

- **Electrical Safety:**
  - Ensure that the power supply matches the tumbler's voltage requirement (230 V).
  - Avoid using extension cords; plug the tumbler directly into a wall outlet.
  - Do not operate the tumbler with wet hands or in damp conditions.
- **Media Safety:**
  - Use only compatible cleaning media as recommended by the manufacturer.
  - Avoid using flammable or explosive materials in the tumbler.
- **Operational Safety:**
  - Do not attempt to open the tumbler while it is in operation.
  - Ensure the lid is securely closed before starting the tumbler.
  - Do not overload the tumbler beyond its capacity (2 lbs. of media).
- **Personal Safety:**
  - Wear safety goggles if you are sensitive to dust or media particles.
  - Keep hair, clothing, and other items away from moving parts.

## Instructions for Installation and Usage

### 1. Setup:

- Place the tumbler on a stable, flat surface away from edges.
- Ensure that the area is dry and free from obstructions.

### 2. Loading Media:

- Open the builtin sifter lid and add the appropriate amount of cleaning media (up to 2 lbs.).
- Load the cartridge cases into the tumbler, ensuring they are evenly distributed.

### 3. Operating the Tumbler:

- Close the sifter lid securely.
- Plug the tumbler into a 230 V power outlet.
- Switch the tumbler on and allow it to run for the recommended cycle time.
- Monitor the operation to ensure it runs smoothly without unusual noises.

### 4. PostOperation:

- Once the cleaning cycle is complete, switch off the tumbler and unplug it.
- Allow the tumbler to cool down before opening the lid.
- Carefully remove the cleaned cases and any remaining media.

## **Disposal Instructions**

- Dispose of any unused media and cleaning materials according to local regulations.
- Do not dispose of electrical components in regular household waste. Follow local electronic waste disposal guidelines.

## **Contact Information for Further Support**

For any safety inquiries or support, please refer to the manufacturer's contact details provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective experience with your Lyman 1200 Pro Tumbler. Thank you for your attention to safety!
