

# MEC 600 JR MARK V SHOT SHELL PRESS - MEC RELOADING 600 JR MARK 5 SINGLE STAGE SHOTSHELL PRESS 10 GAUGE 3-1/2"

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

The MEC 600 Jr. has features normally found only on the high-end models making it one of the most popular, economical single-stage shotshell reloaders on the market today. Fast and efficient operation allows loading eight to ten boxes per hour, plus easily upgrades to the 285 CA primer feed system, which eliminates the need to handle each primer individually. Adjustable for 3" shells, and available in 12, 20, 28 gauge and .410 bore. Includes 1 Charge Bar & 3 Powder Bushings.

# MEC 600 JR MARK V SHOT SHELL PRESS Safety Instruction Guide

## Introduction

Thank you for choosing the MEC 600 Jr. Mark V Shot Shell Press. This guide provides essential safety instructions to ensure the safe and effective use of your reloading press. It is important to follow these guidelines to minimize risks and ensure a safe reloading experience.

## General Safety Guidelines

- Always read and understand the user manual before operating the MEC 600 Jr.
- Ensure that the workspace is clean, welllit, and free from distractions.
- Keep the press out of reach of children and unauthorized individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when reloading.
- Store all components, including powders and primers, in a secure location.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazardous Materials:** Handle all reloading components, including powders and primers, with care. Follow the manufacturer's instructions regarding storage and handling.
- **Mechanical Hazards:** Avoid placing hands or fingers near moving parts during operation. Always ensure that the press is in a stable position before use.
- **Proper Ventilation:** Ensure adequate ventilation in the reloading area to avoid inhaling any fumes from powders or primers.
- **Age Restrictions:** This product is intended for use by individuals 18 years and older. Ensure that younger individuals are supervised when in the vicinity of the reloading press.
- **Emergency Procedures:** Familiarize yourself with emergency procedures in case of accidents or spills. Have a fire extinguisher accessible in the reloading area.

## Instructions for Installation and Usage

### 1. Installation:

- Place the MEC 600 Jr. on a sturdy, stable workbench or table.
- Ensure that the press is securely bolted down to prevent movement during operation.
- Adjust the press according to the manufacturer's guidelines for the specific gauge you are using.

### 2. Usage:

- Before starting, ensure that all components are clean and free from obstructions.
- Load the appropriate gauge shell into the press as per the manufacturer's instructions.
- Set the charge bar and powder bushing according to the desired load specifications.
- Operate the press smoothly and steadily, avoiding sudden movements.
- Keep the area around the press clean and organized to prevent accidents.
- After reloading, inspect the shells to ensure they are properly loaded and free from defects.

## Disposal Instructions

- Dispose of any unused powders, primers, or other hazardous materials according to local regulations.
- Do not throw hazardous materials in the regular trash. Contact local waste management authorities for

proper disposal methods.

- Ensure that any broken or unusable components of the MEC 600 Jr. are disposed of safely and responsibly.

## **Contact Information for Further Support**

For any questions or support regarding the MEC 600 Jr. Mark V Shot Shell Press, please refer to the manufacturer's contact information provided in the user manual. It is important to have access to professional assistance for any technical or safetyrelated inquiries.

By following these safety instructions, you will help ensure a safe and effective reloading experience with your MEC 600 Jr. Mark V Shot Shell Press. Always prioritize safety and remain informed about best practices in reloading.
