

MEC 600 JR MARK V SHOT SHELL PRESS - MEC RELOADING 600 JR MARK 5 SINGLE STAGE SHOTSHELL PRESS 16 GAUGE 2-3/4"

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

The MEC 600 Jr. has features normally found only on the high-end models making it one of the most popular, economical single-stage shotshell reloaders on the market today. Fast and efficient operation allows loading eight to ten boxes per hour, plus easily upgrades to the 285 CA primer feed system, which eliminates the need to handle each primer individually. Adjustable for 3" shells, and available in 12, 20, 28 gauge and .410 bore. Includes 1 Charge Bar & 3 Powder Bushings.

MEC 600 JR MARK V SHOT SHELL PRESS Safety Instruction Guide

Introduction

Thank you for choosing the MEC 600 Jr. Mark V Shot Shell Press. This guide provides essential safety instructions to ensure the safe and effective use of your reloading press. Please read this document carefully before using the product.

General Safety Guidelines

- Always wear appropriate personal protective equipment, including safety glasses and gloves, when operating the shot shell press.
- Ensure that the work area is clean and welllit to prevent accidents.
- Keep the press out of reach of children and unauthorized users.
- Familiarize yourself with the product and its components before use.
- Do not overload the press beyond its specified capacity.
- Ensure that all components are securely fastened and in good condition before use.
- Avoid distractions while operating the press to maintain focus and safety.
- Store the press in a dry and secure location when not in use.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Potential hazards include mechanical injury from moving parts, exposure to lead and other chemicals, and risks associated with improper handling of primers and powders.
- **Avoiding Hazards:**
 - Keep fingers and hands clear of moving parts during operation.
 - Always handle primers and powders with care, following manufacturer guidelines.
 - Use only approved components and accessories for the MEC 600 Jr.
- **AgeSpecific Warnings:**
 - This product is intended for adult use only. Ensure that minors are supervised if they are present in the vicinity of the press.

Instructions for Installation and Usage

- **Installation:**
 1. Choose a stable, flat surface for the installation of the MEC 600 Jr.
 2. Secure the press to the surface using the provided mounting hardware to prevent movement during operation.
 3. Ensure that all components are correctly assembled as per the manufacturer's instructions.
- **Usage:**
 1. Adjust the press for the desired shell size (12, 20, 28 gauge, or .410 bore).
 2. Load the appropriate charge bar and powder bushings as specified for your reloading requirements.
 3. Insert the primer feed system if using the 285 CA primer feed.
 4. Follow the stepbystep reloading procedure as outlined in the product manual.
 5. Monitor the operation closely, ensuring all components function smoothly and safely.

Disposal Instructions

- Dispose of any unused or expired reloading materials according to local regulations.
- Do not dispose of primers or powders in regular trash. Contact local waste management for proper disposal methods.
- Ensure that the press is cleaned and free of residues before storage or disposal.

Contact Information for Further Support

For any inquiries regarding safety, operation, or maintenance of the MEC 600 Jr. Mark V Shot Shell Press, please refer to the manufacturer's customer support resources.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with your MEC 600 Jr. Mark V Shot Shell Press. Always prioritize safety and adhere to the guidelines provided. Thank you for your attention to these important safety measures.
