

MEC 600 JR MARK V SHOT SHELL PRESS - 600 JR. MARK V SINGLE STAGE PRESS 410 GAUGE 3"

The MEC 600 Jr. has features normally found only on the high-end models making it one of the most popular, economical single-stage shotshell reloaders on the market today. Fast and efficient operation allows loading eight to ten boxes per hour, plus easily upgrades to the 285 CA primer feed system, which eliminates the need to handle each primer individually. Adjustable for 3" shells, and available in 12, 20, 28 gauge and .410 bore. Includes 1 Charge Bar & 3 Powder Bushings.

MEC 600 JR MARK V SHOT SHELL PRESS Safety Instruction Guide

Introduction

Thank you for choosing the MEC 600 JR MARK V Shot Shell Press. This product is designed to provide a safe and efficient reloading experience for your shotshells. It is essential to follow the safety instructions outlined in this guide to ensure safe operation and to avoid potential hazards.

General Safety Guidelines

To ensure your safety and the safety of others, please adhere to the following guidelines:

- Always read and understand the instruction manual before using the product.
- Ensure that the workspace is clean, dry, and welllit.
- Keep the press out of reach of children and unauthorized individuals.
- Use the press only for its intended purpose as described in the manual.
- Regularly inspect the equipment for any signs of wear or damage.
- Do not modify the press or use incompatible components.
- Store all materials, including primers and powders, in a safe and secure location.
- Be aware of your surroundings and avoid distractions while operating the press.

Specific Safety Precautions for Use

When using the MEC 600 JR MARK V Shot Shell Press, please take the following precautions:

- Always wear safety glasses to protect your eyes from debris and dust.
- Use hearing protection if you are sensitive to noise.
- Handle all primers and powders with care, following the manufacturer's safety guidelines.
- Ensure that the press is securely mounted to a stable work surface before use.
- Never exceed the recommended load specifications for the shotshells you are reloading.
- Avoid using the press if you are under the influence of drugs or alcohol.
- In case of any malfunction or irregularity, stop using the press immediately and consult the manual.

Instructions for Installation and Usage

Follow these steps for the correct installation and usage of the MEC 600 JR MARK V Shot Shell Press:

Installation

1. Choose a stable and sturdy work surface to mount the press.
2. Use the provided hardware to securely attach the press to the workbench.
3. Ensure that the press is level and does not wobble.
4. Install the charge bar and powder bushings according to the instructions in the manual.
5. Verify that all components are properly assembled before use.

Usage

1. Prepare your workspace by ensuring all necessary materials are within reach.
2. Load the primer feed system if applicable, following the instructions to avoid mishandling.
3. Set the adjustable settings for 3" shells according to your specifications.
4. Begin the reloading process by following the stepbystep instructions in the manual.
5. Monitor the operation closely, ensuring that all components are functioning correctly.
6. After reloading, clean the press to maintain its performance and longevity.

Disposal Instructions

Proper disposal of materials and the press itself is crucial for safety and environmental protection. Follow these guidelines:

- Dispose of empty powder containers and used primers according to local regulations.
- Do not throw away hazardous materials in regular trash. Instead, take them to a designated disposal facility.
- If you need to dispose of the MEC 600 JR MARK V Shot Shell Press, contact local waste management authorities for guidance on safe disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the MEC 600 JR MARK V Shot Shell Press, please refer to the manufacturer's contact information provided in the product documentation. It is important to have access to support for any safety-related questions or product issues.

By adhering to these safety instructions, you can ensure a safe and enjoyable reloading experience with your MEC 600 JR MARK V Shot Shell Press. Always prioritize safety and follow the guidelines to protect yourself and others.
