

# MEC 600 JR MARK V SHOT SHELL PRESS - MEC RELOADING 600 JR. MARK V SINGLE STAGE PRESS 410 GAUGE 3"

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

The MEC 600 Jr. has features normally found only on the high-end models making it one of the most popular, economical single-stage shotshell reloaders on the market today. Fast and efficient operation allows loading eight to ten boxes per hour, plus easily upgrades to the 285 CA primer feed system, which eliminates the need to handle each primer individually. Adjustable for 3" shells, and available in 12, 20, 28 gauge and .410 bore. Includes 1 Charge Bar & 3 Powder Bushings.

# MEC 600 JR MARK V SHOT SHELL PRESS Safety Instruction Guide

## Introduction

Thank you for choosing the MEC 600 JR MARK V Shot Shell Press. This guide provides essential safety information and instructions to ensure the safe and effective use of your reloading press. Please read this guide thoroughly before operating the product.

## General Safety Guidelines

- Always read and understand the user manual before using the MEC 600 JR MARK V Shot Shell Press.
- Ensure that the work area is clean, dry, and welllit to prevent accidents.
- Keep the press out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses and gloves while reloading.
- Do not overload the press beyond its specifications.
- Always inspect the press for any damage or wear before use.
- Follow all local laws and regulations regarding ammunition reloading.

## Specific Safety Precautions for Use

- **Handling Primers:**
  - Always use caution when handling primers. Use the 285 CA primer feed system to minimize direct contact.
  - Store primers in a cool, dry place away from heat sources.
- **Loading Shells:**
  - Ensure that the press is set up correctly for the gauge you are using (12, 20, 28 gauge, or .410 bore).
  - Doublecheck the charge bar and powder bushings before loading to prevent double charges or undercharges.
  - Never leave the press unattended while it is in use.
- **Maintenance:**
  - Regularly clean and lubricate the press according to the manufacturer's recommendations.
  - Do not attempt to modify the press or use unauthorized parts.
- **Emergency Situations:**
  - In case of an accident or malfunction, stop using the press immediately and follow the emergency procedures outlined in the manual.

## Instructions for Installation and Usage

### 1. Installation:

- Place the MEC 600 JR MARK V Shot Shell Press on a sturdy, stable surface.
- Secure the press to the work surface using bolts or clamps to prevent movement during operation.

### 2. Setup:

- Install the appropriate charge bar and powder bushings for the gauge being used.
- Adjust the press for 3" shells as needed.

### **3. Loading Process:**

- Prepare your workspace and gather all necessary materials (shells, powder, wads, shot, primers).
- Follow the stepbystep loading instructions provided in the user manual.
- Monitor the loading process closely to ensure accuracy and safety.

### **4. PostUse:**

- After reloading, clean the press to remove any residue or debris.
- Store the press in a safe location when not in use.

## **Disposal Instructions**

- Dispose of any unused or expired components in accordance with local regulations.
- Do not dispose of hazardous materials (such as primers and powder) in regular household waste.
- Contact your local waste management facility for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the MEC 600 JR MARK V Shot Shell Press, please refer to the manufacturer's contact information provided in the user manual. It is recommended to reach out for assistance or clarification on safety practices and product usage.

By following these safety guidelines and instructions, you can ensure a safe and efficient reloading experience with your MEC 600 JR MARK V Shot Shell Press. Thank you for prioritizing safety in your reloading activities.
