

CONTOUR #4 BARREL...BY SHILEN - SHILEN 25 CALIBER 1-10 TWIST #4 CHROME MOLY BARREL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

Contour #4 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope in- spected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 25 CALIBER 1-10 TWIST #4 CHROME MOLY BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787257104
- Mfr. No.: 257104CM
- Caliber: 25 Caliber (.257)
- Cartridge: -
- Contour: #4
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.792kg
- Shipping height: 28mm
- Shipping width: 36mm

- Shipping length: 711mm

CONTOUR #4 BARREL Safety Instruction Guide

Introduction

Thank you for choosing the CONTOUR #4 BARREL by Shilen. This guide provides essential safety instructions to ensure the safe use and handling of your barrel. Please read this guide carefully before installation and use.

General Safety Guidelines

- Always handle firearms and firearm components with care and responsibility.
- Ensure that the barrel is installed by a qualified gunsmith to guarantee safety and performance.
- Regularly inspect your barrel for signs of wear or damage.
- Follow all local laws and regulations regarding the use of firearms and firearm components.
- Keep the barrel and all firearm components out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recall updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the barrel is compatible with your firearm model before installation.
- Use only ammunition that is specified for use with the 25 caliber barrel.
- Avoid using damaged or corroded ammunition as it may compromise safety.
- Do not attempt to modify or alter the barrel in any way.
- Always wear appropriate safety gear, including eye and ear protection, while shooting.
- Be aware of your surroundings and ensure a safe shooting environment.
- If you notice any unusual sounds or performance issues while using the barrel, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Remove the existing barrel according to the manufacturer's instructions.
- Clean the receiver and ensure it is free from debris.
- Carefully install the CONTOUR #4 BARREL, ensuring it is securely fitted.
- Tighten all screws or fasteners according to the manufacturer's specifications.
- Check for proper alignment and function before proceeding.

2. Usage:

- Load the firearm only when you are ready to shoot.
- Always keep the muzzle pointed in a safe direction.
- Follow all shooting range rules and regulations.
- After shooting, clean the barrel according to the manufacturer's recommendations to maintain performance and longevity.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding firearm components.
- If the barrel is damaged beyond repair, consult local authorities for proper disposal methods.
- Do not discard the barrel in regular waste; it may contain materials that require special handling.

Contact Information for Further Support

For any safety inquiries or further assistance regarding your CONTOUR #4 BARREL, please consult your local authorized dealer or a qualified gunsmith.

Thank you for prioritizing safety and responsible use. Enjoy your shooting experience with the CONTOUR #4 BARREL!
