

CONTOUR #1 BARREL - SHILEN .30, 10 TWIST, CM

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

Contour #1 in Chrome Moly

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003". No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN .30, 10 TWIST, CM](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787308101
- Mfr. No.: 30101CM
- Caliber: 30 Caliber (.308)
- Contour: #1
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.043kg
- Shipping height: 28mm
- Shipping width: 30mm
- Shipping length: 559mm

Item details

Made in USA

US export classification: 0A501.c

Safety Instruction Guide for CONTOUR #1 BARREL SHILEN .30, 10 TWIST, CM

Introduction

Thank you for choosing the CONTOUR #1 BARREL SHILEN .30, 10 TWIST, CM. This guide provides important safety instructions and guidelines to ensure the safe use and handling of this product. Please read this document carefully to understand the necessary precautions and requirements for safe operation.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose and in accordance with the manufacturer's specifications.
- Always handle the barrel with care to prevent damage and ensure safety.
- Keep the barrel out of reach of children and unauthorized persons.
- Regularly inspect the barrel for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearm components and usage.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when handling or using the barrel.
- Do not exceed the specified caliber and twist rate for this barrel.
- Ensure that all components used with the barrel are compatible and meet safety standards.
- Avoid using the barrel if it shows signs of damage or if you suspect it may be defective.
- Use only recommended ammunition types to prevent malfunctions or accidents.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

• Installation:

- Ensure that you have the necessary tools and equipment for installation.
- Follow the manufacturer's instructions for mounting the barrel to your firearm.
- Check that all screws and fittings are secure before using the firearm.

• Usage:

- Before firing, always check the firearm to ensure it is in proper working condition.
- Use the barrel only with firearms designed for .30 caliber ammunition.
- Do not modify the barrel or firearm in any way that could affect performance or safety.
- Always conduct a safety check after installation and before each use.

Disposal Instructions

- Dispose of any unused or damaged barrels according to local regulations.
- Do not dispose of the barrel in regular household waste.
- Contact local waste management services for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety, installation, or usage of the CONTOUR #1 BARREL SHILEN .30, 10 TWIST, CM,

please reach out to the appropriate support channels available in your region.

By following these guidelines, you can ensure a safe and enjoyable experience with your CONTOUR #1 BARREL SHILEN .30, 10 TWIST, CM. Thank you for your attention to safety.
