

CONTOUR #3 BARREL - SHILEN 30 CALIBER 1-10 TWIST #3 CHROME MOLY BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

Contour #3 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 30 CALIBER 1-10 TWIST #3 CHROME MOLY BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787308103
- Mfr. No.: 30103CM
- Caliber: 30 Caliber (.308)
- Contour: #3
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.497kg
- Shipping height: 28mm
- Shipping width: 30mm
- Shipping length: 660mm

Safety Instruction Guide for CONTOUR #3 BARREL SHILEN 30 CALIBER 110 TWIST #3 CHROME MOLY BARREL

Introduction

Thank you for choosing the CONTOUR #3 BARREL SHILEN 30 CALIBER 110 TWIST #3 CHROME MOLY BARREL. This guide provides essential safety information and instructions to ensure the safe use of the product. Please read this document carefully before installation and usage to maximize safety and performance.

General Safety Guidelines

- Ensure that the barrel is installed by a qualified gunsmith to avoid any safety hazards.
- Always follow local laws and regulations regarding firearm modifications and usage.
- Inspect the barrel for any signs of damage or defects before installation.
- Use appropriate personal protective equipment (PPE) when handling the barrel, such as safety glasses and gloves.
- Store the barrel in a dry, secure location away from children and unauthorized users.
- Regularly check for recalls or safety alerts related to the product.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the barrel in any way, as this may compromise safety and performance.
- Ensure that the barrel is compatible with your firearm before installation.
- Be aware of the potential hazards associated with using firearms, including recoil and noise.
- Always treat the firearm as if it is loaded, even when not in use.
- Keep the muzzle pointed in a safe direction at all times during handling.
- Avoid using the barrel with ammunition that exceeds the recommended specifications.

Instructions for Installation and Usage

1. Installation:

- Ensure that the firearm is unloaded and the action is open before beginning installation.
- Remove the existing barrel from the firearm according to the manufacturer's instructions.
- Clean the receiver threads to remove any debris or old lubricant.
- Carefully screw the new CONTOUR #3 BARREL onto the receiver, ensuring it is tightened to the manufacturer's specifications.
- Check for proper alignment and fit before proceeding.

2. Usage:

- Once installed, conduct a thorough inspection of the firearm to ensure all components are secure.
- Test the firearm in a controlled environment, following all safety protocols.
- Monitor the performance of the barrel during use, looking for any signs of irregularities or malfunctions.

Disposal Instructions

- Dispose of any packaging materials in accordance with local recycling regulations.
- If the barrel becomes damaged beyond repair, consult a local authority for safe disposal methods.
- Never dispose of firearms or firearm components in regular trash; follow local laws for hazardous waste.

disposal.
