

# CONTOUR #4 BARREL...BY SHILEN - SHILEN 35 CALIBER 1-14 TWIST #4 CHROME MOLY BARREL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

## Contour #4 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 35 CALIBER 1-14 TWIST #4 CHROME MOLY BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787358124
- Mfr. No.: 358144CM
- Caliber: 35 Caliber (.358)
- Cartridge: -
- Contour: #4
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-14
- Delivery weight: 1.633kg
- Shipping height: 28mm
- Shipping width: 30mm

- Shipping length: 711mm

## **Item details**

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for CONTOUR #4 BARREL BY SHILEN

## Introduction

Thank you for choosing the CONTOUR #4 BARREL by Shilen. This guide provides essential safety information and instructions for the proper use, installation, and disposal of the barrel. It is important to read and understand this guide to ensure safe operation and to maintain your safety and the safety of others.

## General Safety Guidelines

- Ensure that the barrel is installed by a qualified gunsmith or professional to guarantee safety and performance.
- Always handle firearms with care and follow all applicable laws and regulations.
- Store the barrel in a secure location, away from children and unauthorized users.
- Regularly inspect the barrel for any signs of damage or wear. Do not use if damaged.
- Follow all safety instructions provided by the firearm manufacturer in conjunction with the barrel.

## Specific Safety Precautions for Use

- **Use only compatible firearms:** Ensure that the barrel is used with firearms that are designed to accommodate the .35 caliber and the specific twist rate of 114.
- **Check for obstructions:** Before firing, always check the barrel for any obstructions that could cause a malfunction or injury.
- **Protective gear:** Always wear appropriate eye and ear protection when using firearms.
- **Avoid modifications:** Do not attempt to modify the barrel or any associated components without professional guidance.
- **Follow ammunition guidelines:** Use only recommended ammunition types that are compatible with the barrel specifications.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing barrel (if applicable) using appropriate tools.
- Carefully install the CONTOUR #4 BARREL, ensuring it is properly aligned and secured according to the firearm manufacturer's specifications.
- Verify that all components are tight and secure before proceeding.

### 2. Usage:

- Load the firearm according to the manufacturer's instructions.
- Aim the firearm in a safe direction and ensure that the area is clear of obstructions and bystanders.
- Fire the weapon according to standard operating procedures, maintaining control and awareness at all times.
- After use, clean the barrel and inspect for any wear or damage.

## Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding firearms and metal waste.
- If the barrel is damaged or no longer usable, consult with a professional for proper disposal methods.

- Do not discard the barrel in regular household waste.

## **Contact Information for Further Support**

For any inquiries regarding the CONTOUR #4 BARREL, please consult your retailer or a qualified gunsmith. They can provide additional information and support regarding safety, installation, and maintenance.

By following these guidelines, you help ensure the safe use of the CONTOUR #4 BARREL and contribute to a safer shooting environment. Always prioritize safety and consult professionals when in doubt. Thank you for your attention to these important safety instructions.
