

CONTOUR #4 BARREL...BY SHILEN - SHILEN 375 CALIBER 1-12 TWIST #4 CHROME MOLY BARREL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

Contour #4 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

Attributes

- Name: [SHILEN 375 CALIBER 1-12 TWIST #4 CHROME MOLY BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787375124
- Mfr. No.: 375124CM
- Caliber: 375 Caliber (.375)
- Cartridge: -
- Contour: #4
- Material: Chrome Moly Steel
- Style: Match-Grade
- Twist: 1-12
- Delivery weight: 1.633kg
- Shipping height: 28mm
- Shipping width: 28mm

- Shipping length: 711mm

Safety Instruction Guide for CONTOUR #4 BARREL by SHILEN

Introduction

Thank you for choosing the CONTOUR #4 BARREL by SHILEN. This guide provides essential safety instructions and guidelines to ensure the safe use of your barrel. Please read this manual carefully before installation and use. Adhering to these guidelines will help you avoid potential hazards and ensure a safe shooting experience.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Store your barrel in a secure location, away from children and unauthorized users.
- Inspect your barrel regularly for any signs of damage or wear.
- Use only compatible ammunition for your specific caliber.
- Follow all local laws and regulations regarding firearm use and ownership.
- If you are unsure about any aspect of firearm safety, seek guidance from a qualified professional.

Specific Safety Precautions for Use

- Ensure that the barrel is properly installed on the firearm before use.
- Always wear appropriate eye and ear protection when shooting.
- Do not use the barrel if it has been damaged or if you suspect it may be unsafe.
- Avoid using the barrel in adverse weather conditions that could affect safety.
- Never point the firearm at anything you do not intend to shoot.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

1. Installation

- Ensure that the firearm is unloaded before beginning the installation process.
- Follow the manufacturer's instructions for removing the old barrel, if applicable.
- Align the CONTOUR #4 BARREL with the receiver of your firearm.
- Secure the barrel according to the manufacturer's specifications, ensuring it is tightly fitted.
- Doublecheck that all screws and fittings are secure before proceeding.

2. Usage

- Confirm that the barrel is clear of obstructions before loading.
- Load the firearm with compatible ammunition.
- Always keep the muzzle pointed in a safe direction when loading and unloading.
- Fire the firearm in a controlled environment, following all safety protocols.
- After use, clean the barrel according to the manufacturer's recommendations to maintain performance and safety.

Disposal Instructions

- Dispose of the barrel in accordance with local regulations.
- Do not dispose of the barrel in regular waste; contact a local firearms dealer or recycling center for proper disposal methods.
- Ensure that the barrel is rendered inoperable before disposal to prevent misuse.

Contact Information for Further Support

For any safety inquiries or additional support, please consult your local firearm dealer or manufacturer. It is essential to have access to expert advice when dealing with firearmrelated products.

By following these safety guidelines, you can ensure a safe and enjoyable experience with your CONTOUR #4 BARREL by SHILEN. Thank you for prioritizing safety and responsible firearm use.
