

# CONTOUR #4 BARREL...BY SHILEN - SHILEN 7MM 1-9 TWIST #4 STAINLESS BARREL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

## Contour #4 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 7MM 1-9 TWIST #4 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787928094
- Mfr. No.: 7MM94SS
- Caliber: 284/7 mm (.284)
- Cartridge: -
- Contour: #4
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-9
- Delivery weight: 1.746kg
- Shipping height: 28mm
- Shipping width: 30mm

- Shipping length: 711mm

# Safety Instruction Guide for CONTOUR #4 BARREL by SHILEN

## Introduction

Thank you for choosing the CONTOUR #4 BARREL by SHILEN. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read the entire guide carefully to understand how to use the barrel safely and effectively.

## General Safety Guidelines

- Ensure that the barrel is intended for use with compatible firearms only.
- Always handle the barrel with care and store it in a safe place when not in use.
- Follow all local laws and regulations regarding firearm components and usage.
- Regularly inspect the barrel for any signs of damage or wear before each use.
- Be aware of your surroundings and ensure that you are in a safe environment when using the barrel.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including eye protection, when handling or using the barrel.
- Ensure that the firearm is unloaded before installing or removing the barrel.
- Do not attempt to modify the barrel in any way, as this may compromise safety and performance.
- Keep the area clear of unauthorized personnel, especially children, when using the barrel.
- If you notice any unusual behavior or performance issues while using the barrel, cease use immediately and consult a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Remove the existing barrel according to the firearm manufacturer's instructions.
- Carefully install the CONTOUR #4 BARREL by aligning it properly with the receiver.
- Tighten the barrel according to the manufacturer's specifications to ensure secure installation.
- Doublecheck that the barrel is installed correctly before proceeding.

### 2. Usage:

- Load the firearm only after confirming that the barrel is securely installed.
- Always follow safe shooting practices, including keeping the muzzle pointed in a safe direction.
- Do not exceed the recommended caliber specifications for your firearm.
- After use, clean the barrel according to the manufacturer's recommendations to maintain performance.

## Disposal Instructions

- Dispose of the barrel in accordance with local regulations regarding firearm components.
- If the barrel is damaged or no longer usable, contact a qualified professional for safe disposal options.
- Never dispose of the barrel in regular household waste.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the CONTOUR #4 BARREL by SHILEN, please consult your local supplier or authorized dealer. They can provide additional support and information.

## **Conclusion**

By following these safety instructions, you can help ensure a safe and enjoyable experience with your CONTOUR #4 BARREL. Always prioritize safety and responsibility when handling firearms and their components. Thank you for your attention to these important guidelines.
