

# UNTURNED 30 CALIBER BARRELS - SHILEN 30 CALIBER 1-10" TWIST UNTURNED BLANK STAINLESS BBL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Blanks](#)

All the loving care of the best stock maker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownells Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope in- spected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003" No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 30 CALIBER 1-10" TWIST UNTURNED BLANK STAINLESS BBL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787930100
- Mfr. No.: 3010BLANKSS
- Caliber: 30 Caliber (.308)
- Contour: Blank
- Material: Stainless Steel
- Style: Unturned
- Twist: 1-10
- Delivery weight: 4.091kg
- Shipping height: 32mm
- Shipping width: 32mm
- Shipping length: 711mm

## Item details

Made in USA

US export classification: 0A501.c

# Consumer Safety Instruction Guide for UNTURNED 30 Caliber Barrels

## Introduction

Thank you for choosing the UNTURNED 30 Caliber Barrels, manufactured by SHILEN. This guide provides essential safety instructions to ensure the safe use and handling of your barrel. Please read this document carefully to understand how to operate and maintain your product safely.

## General Safety Guidelines

- Ensure that the barrel is installed by a qualified gunsmith to avoid any safety hazards.
- Always follow the manufacturer's instructions and guidelines for the use of the barrel.
- Regularly inspect your barrel for any signs of wear or damage.
- Store the barrel in a secure location, away from children and unauthorized users.
- Be aware of local laws and regulations regarding firearm components and usage.
- Report any unsafe products or accidents to the appropriate authorities immediately.
- Check for recall updates on the EU's Safety Gate platform to stay informed about your product's safety status.

## Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using firearms equipped with the barrel.
- Do not exceed the recommended caliber specifications for your firearm.
- Ensure that the firearm is unloaded before installing or handling the barrel.
- Avoid using damaged or compromised barrels, as they may pose a safety risk.
- Be cautious of the environment in which you are shooting; ensure it is safe and legal.
- Never point the firearm at anything you do not intend to shoot.
- Keep your fingers off the trigger until you are ready to shoot.
- Always treat every firearm as if it is loaded.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Remove the existing barrel according to the firearm manufacturer's instructions.
- Carefully install the UNTURNED 30 Caliber Barrel, ensuring it is securely fastened.
- Check alignment and ensure the barrel is properly seated.
- Consult a qualified gunsmith if you are unsure about the installation process.

### 2. Usage:

- Load the firearm only when you are ready to shoot.
- Use the appropriate ammunition for your barrel caliber.
- Regularly clean and maintain your barrel to ensure optimal performance.
- After use, inspect the barrel for any signs of wear or damage.
- Store the firearm and barrel securely when not in use.

## Disposal Instructions

- Dispose of any old or damaged barrels in accordance with local regulations regarding hazardous materials.

- Contact your local waste management authority for guidance on safe disposal methods.
- Do not discard barrels in regular trash; ensure they are disposed of in a manner that complies with safety regulations.

## Contact Information for Further Support

For any questions or concerns regarding the UNTURNED 30 Caliber Barrels, please refer to the manufacturer's contact information provided with your product packaging. It is important to reach out for assistance if you have any safety inquiries or require further guidance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your UNTURNED 30 Caliber Barrels. Thank you for your attention to these important guidelines.
