

# CONTOUR #2 - SHILEN 30 CALIBER 1-10 TWIST #2 STAINLESS BARREL

[Rifle Parts](#) > [Barrel Parts](#) > [Rifle Barrel Blanks](#)

## Contour #2 in Chrome Moly or Stainless Steel

All the loving care of the best stockmaker and the meticulous attention to detail of the master machinist will not make a gun shoot any straighter than the accuracy capability of the barrel used. And, it is the insides of a barrel, that very small and vital area of lands and grooves over which the gunsmith has no control, that can determine whether the finished work of art is for shooting - or "just for looks". Craftsmanship . . . not price . . . determines the quality of a barrel. But, by the same token, the customer willing to spend the money for a custom gun is shortsighted indeed, if he starts economizing and orders "just any old barrel so long as it's cheap". Furthermore, he is jeopardizing your reputation as a gun builder by making such a request. We, as your supplier, are laying our reputation (and yours, too!) on the line by offering you barrel blanks. They have got to be good or we are in trouble! Big trouble!! We must never sell you anything but that which will enlarge your stature with your trade. And, we feel that the Brownell Barrel, made for us by Ed Shilen, will do just that! Shilen barrels, either chrome moly or Stainless, are rifled with six lands and grooves by the "Cold Forming" process using carbide dies made in Shilen's own plant under the most rigid controls. This rifling method achieves extremely close inside uniformity from breech to muzzle. Finished barrels are air-gauge inspected (air-gauged sensitivity is .00005" - five-one-hundred-thousandths!) and 6X borescope inspected. All barrels, .22 through .30 caliber have groove tolerances within .0005" and uniformity within .0003". No straightening is done, and all barrels are completely stress-relieved. All stainless steel barrels are hand lapped at the factory. Only those barrels passing all spec tests are offered to the trade. Any barrel even slightly "suspect" is started through the production process again and bored to a large caliber. In no other way can quality and reputation be maintained. Slightly more expensive to produce - but vastly greater in quality and ultimate performance.

## Attributes

- Name: [SHILEN 30 CALIBER 1-10 TWIST #2 STAINLESS BARREL](#)
- Manufacturer: [SHILEN](#)
- Product no.: 787930102
- Mfr. No.: 30102SS
- Caliber: 30 Caliber (.308)
- Contour: #2
- Material: Stainless Steel
- Style: Match-Grade
- Twist: 1-10
- Delivery weight: 1.27kg
- Shipping height: 28mm
- Shipping width: 28mm
- Shipping length: 660mm

## Item details

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for CONTOUR #2 SHILEN 30 CALIBER 110 TWIST #2 STAINLESS BARREL

## Introduction

Thank you for choosing the CONTOUR #2 SHILEN 30 CALIBER 110 TWIST #2 STAINLESS BARREL. This guide provides essential safety instructions to ensure the safe use and handling of your barrel. Please read this guide thoroughly before using the product.

## General Safety Guidelines

- Ensure that the barrel is installed by a qualified gunsmith to avoid improper installation that may lead to accidents.
- Always handle firearms and their components with care and respect.
- Store the barrel in a secure location, away from children and unauthorized users.
- Regularly inspect the barrel for any signs of damage or wear that could compromise safety.
- Follow all applicable local laws and regulations regarding firearms and their components.

## Specific Safety Precautions for Use

- Never use ammunition that exceeds the specified caliber for this barrel. Using incorrect ammunition can lead to catastrophic failure.
- Avoid using the barrel in conditions that may lead to overheating, such as extended firing without adequate cooling periods.
- Be aware of your surroundings and ensure that the area is clear of bystanders when using the firearm.
- Always wear appropriate safety gear, including eye and ear protection, when firing.

## Instructions for Installation and Usage

### 1. Installation:

- Consult a qualified gunsmith for installation to ensure proper alignment and fit.
- Ensure that the barrel is compatible with your firearm model.
- Use appropriate tools to secure the barrel without overtightening, which can cause damage.
- After installation, perform a thorough check to confirm that the barrel is securely attached.

### 2. Usage:

- Load the firearm only when you are ready to shoot.
- Keep the firearm pointed in a safe direction at all times.
- Always engage the safety mechanism when the firearm is not in use.
- Clean the barrel regularly to maintain its performance and longevity. Follow the manufacturer's recommendations for cleaning products and procedures.

## Disposal Instructions

- When disposing of the barrel, follow local regulations regarding the disposal of firearms and their components.
- If the barrel is damaged beyond repair, consult with local authorities for safe disposal options.
- Do not discard the barrel in regular waste.

## **Contact Information for Further Support**

For any questions regarding the safety of this product, please refer to the manufacturer's contact information included with your purchase. It is important to have access to support for any safety concerns.

By following these safety guidelines and instructions, you can help ensure a safe and enjoyable experience with your CONTOUR #2 SHILEN 30 CALIBER 110 TWIST #2 STAINLESS BARREL. Always prioritize safety and responsible usage.
