Safety Instruction Guide for the Starrett 120 Series Dial Caliper

Introduction

Thank you for choosing the Starrett 120 Series Dial Caliper. This Americanmade measuring tool is designed for precision and ease of use, making it an essential instrument for mechanics and toolmakers. To ensure safe and effective use of this product, please read and follow the safety guidelines outlined in this document.

General Safety Guidelines

- Ensure the caliper is used in a clean and dry environment to prevent damage and ensure accurate measurements.
- Always inspect the caliper for any visible damage or wear before use. Do not use if damaged.
- Keep the caliper away from children and unauthorized users.
- Use the caliper only for its intended purpose. Do not use it for measuring food or any other noncompatible materials.
- Store the caliper in its padded case when not in use to protect it from physical damage.

Specific Safety Precautions for Use

- Handle the caliper with care to avoid dropping or mishandling, which can lead to inaccurate measurements or breakage.
- When taking measurements, ensure that the measuring surfaces are clean and free from debris.
- Avoid applying excessive force when using the caliper, especially during fine adjustments.
- Use the thumboperated fine adjustment roll gently to ensure smooth operation and prevent damage.
- Be cautious when using the knifeedge contacts, as they can be sharp and may cause injury.

Instructions for Installation and Usage

1. Unpacking the Caliper

- Remove the caliper from its padded plastic case.
- Inspect the caliper for any signs of damage or defects.

2. Setting Up the Caliper

- Ensure the caliper is clean and free from any obstructions.
- Adjust the caliper to the desired measurement range (06 inches).

3. Taking Measurements

- For inside measurements, use the knifeedge contacts to measure the internal dimensions.
- For outside measurements, position the caliper's outside jaws around the object.
- Use the thumboperated fine adjustment roll to make precise adjustments.
- Read the measurement from the clear and sharp dial gradations.

4. After Use

- Clean the caliper with a soft cloth to remove any dirt or debris.
- Store the caliper back in its padded case to protect it from damage.

Disposal Instructions

- Dispose of the caliper in accordance with local regulations regarding metal and plastic waste.
- Do not dispose of the caliper in regular household waste if it is damaged or broken.
- Consider recycling the materials if possible.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Starrett 120 Series Dial Caliper, please reach out to the designated EU contact point for assistance.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your Starrett 120 Series Dial Caliper. Always prioritize safety and care while using measuring tools to achieve accurate results.
