

Military Tripod - Scout Series

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

The Scout Series Military Tripod is the mission-optimized evolution of our popular 2.0 platform.. Built for professionals operating in the harshest conditions. Whether you're in the field, on a vessel, or in high-pressure urban environments, this tripod delivers maximum reliability, stability, and concealment.

Key Features:

Advanced Composite Legs Constructed from an enhanced composite mix, the tripod legs are both lighter and more rigid than standard carbon fiber. This material naturally forms a camouflage-like pattern, which we've extended to help the tripod blend more effectively into outdoor environments.

AVAILABLE

Wolfskrieger LegLock System

A dedicated locking mechanism allows you to fully secure the legs, both open and closed. This eliminates unwanted movement during transport, setup, or operation, even under stress or in fast-paced environments.

Saltwater-Resistant Hardware

All key hardware components, including screws and spacers, have been upgraded for corrosion resistance, making this tripod ideal for maritime and coastal deployments.

Low-Contrast Anodized Finish

All bright blue parts from the standard version have been replaced with low-visibility grey anodized components. This reduces visual signature and eliminates reflections in tactical or low-light scenarios.

Retains the Core Strengths of the 2.0 Platform

- 165cm extended height for flexible shooting positions
- Increased ball head adjustment range
- Lever-lock Arca clamp for rapid mounting
- Integrated QD sling socket for fast carry
- Exceptional stability on all terrains

Refined Through Real-World Experience

The Scout Series Military Tripod is more than just an upgraded version of our proven 2.0 platform. It's the result of direct operational feedback from the field. What began as a German development project has grown into a truly **European effort**, shaped by real-world input from military professionals across the continent.

Over the past two years, we've worked closely with special units and armed forces in **France, Italy, Germany, Greece, Denmark, Norway, Austria, Ukraine, Estonia, Cyprus, Slovakia, and the Czech Republic** to refine every detail. Their collective experience helped turn a great product into an exceptional one, fit for deployment under the toughest conditions.

To everyone who contributed their time, testing, and trust: thank you.

Attributes

- Name: [Military Tripod - Scout Series](#)
- Manufacturer: [GERMAN TACTICAL SYSTEMS](#)

Safety Instruction Guide for the Scout Series Military Tripod

Introduction

Thank you for choosing the Scout Series Military Tripod. This tripod is designed for professionals operating in demanding environments. To ensure your safety and the optimal performance of the product, please read this safety instruction guide carefully before use.

General Safety Guidelines

- Always inspect the tripod before each use to ensure it is in good condition.
- Use the tripod only for its intended purpose and within its specified limits.
- Ensure that the tripod is set up on stable ground to prevent tipping or collapsing.
- Keep the tripod away from extreme temperatures and moisture to maintain its integrity.
- Be cautious when handling the tripod, as sharp edges may be present.
- Always secure the legs using the Wolfskrieger LegLock System to prevent accidental movement.
- Do not exceed the maximum load capacity of the tripod to avoid structural failure.

Specific Safety Precautions for Use

- Do not use the tripod in high winds or severe weather conditions that may compromise stability.
- When transporting the tripod, ensure that it is securely locked in the closed position.
- Avoid placing the tripod near the edge of cliffs, steep slopes, or unstable surfaces.
- Keep bystanders at a safe distance when setting up or adjusting the tripod.
- Use caution when adjusting the ball head to prevent pinching or injury.
- If using in lowlight conditions, ensure that the tripod is visible to avoid accidents.

Instructions for Installation and Usage

1. Setting Up the Tripod

- Unpack the tripod and lay it on a flat surface.
- Extend the legs to the desired height, ensuring they are fully locked in place using the Wolfskrieger LegLock System.
- Adjust the ball head to your preferred angle for shooting.

2. Mounting Equipment

- Attach your camera or equipment to the Arca clamp securely.
- Ensure that the equipment is properly balanced to prevent tipping.

3. Using the Tripod

- Always check that the legs are stable and locked before placing any equipment on the tripod.
- Adjust the height as needed, ensuring that the legs remain locked during adjustments.
- When finished, carefully remove your equipment and collapse the tripod by unlocking the legs.

4. Transporting the Tripod

- Ensure that the legs are fully closed and locked before transporting.
- Use the integrated QD sling socket for convenient carrying.

Disposal Instructions

- Dispose of the tripod in accordance with local regulations.
- Do not dispose of the tripod in household waste; consider recycling options for composite materials and metals.
- Remove any electronic components before disposal, if applicable.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Scout Series Military Tripod, please refer to the product packaging for the appropriate contact details. Your safety and satisfaction are important to us.

By following these guidelines and instructions, you can ensure a safe and effective experience with your Scout Series Military Tripod. Thank you for your attention to safety and for choosing our product.
