

3-12×44 FFP Rifle Scope

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Mount Sets](#)

The Prussia Precision 3-12×44 FFP Rifle Scope is a compact and versatile optic designed for both hunting and sport shooting, offering precise MIL-based adjustments in a robust and field-ready platform. With its 3-12× magnification range, it provides a wide field of view for scanning terrain at lower power and the precision required for confident shot placement at longer distances.

The scope is equipped with a MIL crosshair reticle in the first focal plane (FFP). Because the reticle scales proportionally with magnification, holdovers and ranging references remain accurate at every zoom level. This makes it particularly suitable for shooters who prefer working in the MIL system for consistent adjustments and intuitive corrections.

Its 44 mm objective lens and fully multi-coated optics deliver a bright, clear image with a generous field of view and comfortable eye relief, making the scope equally suitable for dynamic sport shooting and practical hunting use.

Built on a durable 30 mm tube machined from 6061-T6 aircraft-grade aluminum, the scope is engineered for demanding environments. It is shock resistant up to 750 G, nitrogen filled to eliminate internal fogging, and sealed to IPX4 standards for weather resistance.

The precision turrets feature a locking mechanism with zero stop functionality, adjusting in fine 1/10 MIL increments with a total elevation and windage range of 17.5 MIL each. Side parallax adjustment from 10 meters to infinity allows sharp focus across varying distances.

Compact at less than 25cm in length and weighing only 500 g, the scope balances durability and manageable weight, making it well suited for hunting rifles and sport shooting platforms alike.

Attributes

- Name: [3-12×44 FFP Rifle Scope](#)
- Manufacturer: [PRUSSIA PRECISION](#)
- Product no.: EU2016235
- Mfr. No.: PP-1561-BLK
- Colour: Black
- Delivery weight: 1kg
- Shipping height: 100mm
- Shipping width: 100mm
- Shipping length: 100mm

Safety Instruction Guide for the 312×44 FFP Rifle Scope

Introduction

Thank you for choosing the Prussia Precision 312×44 FFP Rifle Scope. This guide provides essential safety instructions to ensure the safe and effective use of your rifle scope. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that the rifle scope is used only for its intended purpose.
- Always follow local laws and regulations regarding the use of firearms and optics.
- Keep the rifle scope out of reach of children and vulnerable individuals.
- Regularly inspect the scope for any signs of damage or wear.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always handle firearms safely and responsibly.
- Ensure that the rifle is pointed in a safe direction when attaching or adjusting the scope.
- Use appropriate eye protection when using the rifle scope.
- Do not attempt to disassemble or modify the scope.
- Avoid exposing the scope to extreme temperatures or harsh environmental conditions.
- Ensure that the scope is securely mounted before use to prevent accidents.

Instructions for Installation and Usage

Installation

1. Select a Compatible Mounting System:

- Ensure that the mounting rings are compatible with the 30 mm tube of the scope.

2. Mounting the Scope:

- Place the scope in the mounting rings and adjust to the desired eye relief.
- Tighten the mounting screws evenly to secure the scope without overtightening.

3. Level the Scope:

- Use a leveling tool to ensure that the reticle is horizontal when the rifle is level.

4. Check for Proper Alignment:

- Look through the scope to ensure proper alignment and adjust if necessary.

Usage

1. Adjusting the Magnification:

- Rotate the magnification ring to select the desired power level (3x to 12x).

2. **Focusing the Reticle:**

- Adjust the side parallax knob to achieve a sharp focus at your target distance.

3. **Using the Turrets:**

- To make adjustments, unlock the turrets and turn them in the desired direction.
- Each click represents a 1/10 MIL adjustment.

4. **Zeroing the Scope:**

- Fire a group of shots at a target and adjust the turrets based on the point of impact to achieve zero.

5. **Maintaining the Scope:**

- Regularly clean the lenses with a soft cloth and lens cleaner.
- Store the scope in a protective case when not in use.

Disposal Instructions

- Dispose of the rifle scope in accordance with local regulations for electronic waste.
- Do not incinerate or dispose of the scope in regular household waste.

Contact Information for Further Support

For any inquiries or support regarding the safety and usage of the 312×44 FFP Rifle Scope, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website.

Thank you for adhering to these safety guidelines. Enjoy your shooting experience with the Prussia Precision 312×44 FFP Rifle Scope.
